Bidders will also be required to furnish the documentary evidence for meeting the RfS Qualification Requirements as per Section 3.4.

#### **3.9.3 Power Generation by Successful Bidder**

- (i) **Criteria for Generation:** The Successful Bidder will declare the annual CUF of his Project at the time of submission of response to RfS, which shall be allowed to be modified until 1 year after Commercial Operation Date of the project. Thereafter, the CUF for the Project shall remain unchanged for the entire term

of the PPA. The declared annual CUF shall in no case be less than 17%. Successful Bidder shall maintain generation so as to achieve annual CUF within + 10% and -15% of the declared value till the end of 10 years from COD, subject to the annual CUF remaining minimum of 15%, and within +10% and - 20% of the declared value of the annual CUF thereafter till the end of the PPA duration of 25 years. The lower limit will, however, be relaxable by GUVNL to the extent of non-availability of grid for evacuation which is beyond the control of the Successful Bidder. The annual CUF will be calculated every year from 1st April of the year to 31st March next year.

- (ii) **Shortfall in Generation:** If for any Contract Year, it is found that the Successful Bidder has not been able to generate minimum energy corresponding to the value of annual CUF within the permissible lower limit of CUF declared by the Successful Bidder, on account of reasons solely attributable to the Successful Bidder, such shortfall in performance shall make the Successful Bidder liable to pay the compensation @ 25% of the PPA tariff to GUVNL. This will, however, be relaxable by GUVNL to the extent of grid non-availability for evacuation (beyond the Delivery Point) which is beyond the control of the Successful Bidder. This compensation shall be applied to the amount of shortfall in generation during the Contract Year.

However, this compensation shall not be applicable in events of Force Majeure identified under the PPA with GUVNL, affecting supply of solar power by the Successful Bidder

- (iii) **Excess Generation:** In case the generation is over and above 10% of declared annual CUF, the Successful Bidder will be free to sell it to any other entity provided first right of refusal will vest with GUVNL. In case GUVNL purchases the excess generation, the same may be done at 75% (seventy-five per cent) of the PPA tariff.
- (iv) **Generation Compensation in Offtake Constraint due to Transmission Infrastructure not Complete / Ready Beyond Delivery Point (Transmission Constraint)-** After the scheduled commissioning date, if the plant is ready but the necessary power evacuation / transmission infrastructure beyond Delivery Point is not ready, for reasons not attributable to the Successful Bidder, leading to offtake constraint, the provision for generation compensation is as follows:

<b>Transmission Constraint beyond Delivery Point</b>	<b>Provision for Generation Compensation</b>
If the plant is ready but the necessary power evacuation/ transmission infrastructure beyond Delivery Point is not ready, leading to offtake	a) The normative CUF of 19% (nineteen per cent) or committed CUF, whichever is lower, for the period of grid unavailability beyond Delivery Point, shall be taken for the purpose of calculation of generation loss.

constraint	<p>Corresponding to this generation loss, the excess generation by the Successful Bidder in the succeeding 3 (three) Contract Years, shall be procured by GUVNL at the PPA tariff so as to offset this loss.</p> <p>b) If the transmission delay is directly attributable to the organization building the transmission network and some penalty is imposed on him, then a part of that penalty may be utilized by GUVNL for compensating the generation loss.</p>
------------	--

However, it is clarified that if the plant is ready before SCOD, but the offtake is constrained because of inadequate / incomplete power evacuation infrastructure beyond Delivery Point, no compensation shall be permissible.

- (v) **Generation Compensation in Offtake Constraints Due to Grid Unavailability Beyond Delivery Point** - During the operation of the plant, there can be some periods where the plant can generate power but due to temporary transmission unavailability beyond Delivery Point the power is not evacuated, for reasons not attributable to the Successful Bidder. In such cases the generation compensation shall be addressed by GUVNL in following manner:

<b>Duration of Grid unavailability beyond Delivery Point</b>	<b>Provision for Generation Compensation</b>
Grid unavailability beyond Delivery Point in a contract year as defined in the PPA: (only period from 8 am to 6 pm to be counted):	<p><b>Generation Loss = [(Average Generation per hour during the contract year) × (number of hours of grid unavailability beyond Delivery Point during the contract year)]</b></p> <p>Where, Average Generation per hour during the contract year (kWh) = Total generation in the contract year (kWh) ÷ Total hours of generation in the contract year</p> <p>The excess generation by the Successful Bidder equal to this generation loss shall be procured by GUVNL at the PPA tariff so</p>

	as to offset this loss in the succeeding 3 (three) Contract Years.
--	--

- (vi) **Offtake Constraints Due to Back down-** The Successful Bidder and GUVNL shall follow the forecasting and scheduling process as per the regulations in this regard by the GERC. The Government of India, as per Clause 5.2(u) of the Indian Electricity Grid Code (IEGC), encourages a status of “must-run” to solar power projects. Accordingly, no Solar Power Plant, duly commissioned, should be directed to back down by a DISCOM / Load Dispatch Centre (LDC). In case such eventuality of Back down arises, including non-dispatch of power due to non-compliance with “Order No. 23/22/2019-R&R dated 28.06.2019 of Ministry of Power regarding Opening and maintaining of adequate Letter of Credit (LC) as Payment Security Mechanism under Power Purchase Agreements by Distribution Licensees” and any clarifications or amendment thereto except for the cases where the Back down is on account of events like consideration of grid security or safety of any equipment or personnel or other such conditions, the Successful Bidder shall be eligible for a Minimum Generation Compensation, from GUVNL, in the manner detailed below.

Duration of Back down	Provision for Generation Compensation
Hours of Back down during a monthly billing cycle.	$\text{Minimum Generation Compensation} = [(\text{Average Generation per hour during the month}) \times (\text{number of Back down hours during the month})] \times \text{PPA Tariff}$ <p>Where, Average Generation per hour during the Month (kWh) = Total generation in the Month (kWh) ÷ Total hours of generation in the Month.</p>

The Generation Compensation is to be paid as part of the energy bill for the successive month after receipt of State Energy Accounts (SEA).

- 3.9.4 The Successful Bidders shall be free to operate their projects after expiry of the 25 years from the SCOD of the Project, if other conditions like land lease etc., permits. However, any extension of the PPA period beyond 25 years from the SCOD of the project shall be through mutual agreements between the Successful Bidder and GUVNL.
- 3.9.5 The Successful Bidder will be free to re-power their Plant(s) from time to time during the PPA duration. However, GUVNL will be obliged to buy power only within the range of CUF specified in the PPA.

### 3.10 Financial Closure or Project Financing Arrangements

The Successful Bidder shall report tie-up of Financing Arrangements for the Project(s) within 9 months from the date of execution of PPA for which the Successful Bidder shall furnish the documentary evidence within 9 months from the date of execution of PPA. In

addition to above, Successful Bidder shall be required to submit Implementation & Support Agreement executed with SPPD, to GUVNL within 9 months from date of execution of PPA. For avoidance of doubt, it is hereby clarified that no change in location / plot shall be allowed and the successful bidder will have to develop the project in the same plot which is allocated to them.

An extension for the attainment of the financial closure can however be considered by GUVNL, on the sole request of the Successful Bidder, on advance payment of extension charges of Rs. 1000/- per day per MW (Plus GST). In case of any delay in depositing this extension charge, the Successful Bidder has to pay an interest on this extension charge for the days lapsed beyond due date of Financial Closure @ SBI MCLR (1Year). This extension will not have any impact on the SCOD. Any extension charges paid so, shall be returned to the Successful Bidder without any interest on achievement of successful commissioning within the SCOD, on pro-rata basis, based on the Project Capacity commissioned on SCOD. However, in case of any delay in commissioning of the project beyond the Scheduled Commissioning Date, the amount as deposited above by the Successful Bidder shall not be refunded by GUVNL.

### **3.11 Commissioning and penalty for delay in commissioning**

The Commissioning of the Projects shall be carried out by the Successful Bidder selected based on this RfS, in line with the Procedure elaborated in standard PPA document. The Successful Bidder shall be required to obtain Developer and / or Transfer Permission, Key Plan drawing etc. from GEDA prior to mounting of the solar panels and submit the same to GUVNL prior to actual commissioning of the Project. Commissioning certificates shall be issued by the State Nodal Agency i.e. GEDA after successful commissioning of Project in accordance with the applicable rules / regulations.

Further, the successful bidder shall submit details of Technology adopted as per Annexure A and in accordance with MNRE's Approved Models and Manufacturers of Solar PV Modules (Requirements for Compulsory Registration) Order, 2019 as amended from time to time prior to actual commissioning of the Project. Moreover, the successful bidder shall submit the Land Lease Agreement executed with SPPD to GUVNL on or before the Scheduled Commercial Operation Date.

**3.11.1 Part Commissioning:** Part commissioning of the Project shall be accepted by GUVNL subject to the condition that the Minimum Capacity for acceptance of first and subsequent part(s) commissioning shall be 50 MW, without prejudice to the imposition of penalty, in terms of the PPA on the part which is not commissioned. However, the SCOD (Schedule Commercial Operation Date) will not get altered due to part-commissioning. Irrespective of dates of part commissioning or full commissioning, the PPA will remain in force for a period of 25 (twenty-five) years from the SCOD.

**3.11.2 Early Commissioning:** The Successful Bidder shall be permitted for full commissioning as well as part commissioning of the Project even prior to the SCOD. In cases of early part-commissioning, till SCOD, GUVNL may purchase the

generation till SCOD, at 75% (seventy-five per cent) of the PPA tariff. However, in case the entire capacity is commissioned prior to SCOD, GUVNL may purchase the generation at PPA Tariff.

**3.11.3 Penalty for Delay in Commissioning:** The Project shall be commissioned by the Scheduled Commercial Operation Date. In case of failure to achieve this milestone, GUVNL shall encash the Performance Bank Guarantee (PBG) in the following manner.

- a) Delay upto six (6) months from SCOD – GUVNL will encash total Performance Bank Guarantee on per day basis and proportionate to the balance Capacity not commissioned
- b) In case the commissioning of the project is delayed beyond Six (6) months from SCOD, the Power Producer's Event of Default as per Article 10.2.1 of PPA shall be considered to have occurred and the contracted capacity shall stand reduced to the project capacity commissioned upto SCOD + 6 months. The PPA for balance capacity not commissioned shall be terminated.

### **3.12 Commercial Operation Date (COD):**

Commercial Operation date (COD) shall be the date certified by GEDA upon successful commissioning of full capacity of the Project or the last part capacity of the Project as the case may be. Successful Bidders shall have to provide a written notice to GUVNL at least 10 days in advance for the same.

### **3.13 Minimum Paid up Share Capital to be Held by Project Promoter**

- i) The Company developing the project shall provide complete information in their bid in reference to RfS about the Promoters and their shareholding in the company indicating the controlling shareholding before signing of PPA with GUVNL.
- ii) No change in the shareholding pattern of the Bidding Company or Bidding Consortium developing the Project shall be permitted from the date of submission of response to RfS till the execution of the PPA. However, in case the Project is being set up by a listed Company, this condition will not be applicable.
- iii) After execution of PPA, the shareholding of single bidder / consortium members in the SPV / Project Company developing the project shall not fall below 51% (Controlling Shareholding) at any time prior to one (1) year from COD except with prior approval of GUVNL. In case Successful Bidder shall be itself executing the PPA, then it shall ensure that its promoters shall not cede Control till (1) one year from COD except with prior approval of GUVNL. After expiry of 1 year from COD, any change can be undertaken under intimation to GUVNL. Transfer of controlling the shareholding within the same group of companies will however be allowed after COD, with the permission of GUVNL, subject to the condition that, the management control remains within the same group of companies. In the event the Successful Bidder is in default to the

lender(s), lenders shall be entitled to undertake “Substitution of Promoter” in concurrence with GUVNL.

- iv) In the event of Change in Shareholding/ Substitution of Promoters triggered by the Financial Institutions leading to signing of fresh PPA with a New Entity, an amount of Rs. 10 Lakh per Project per Transaction as Facilitation Fee (non-refundable) plus GST shall be deposited by the Successful Bidder to GUVNL. However, the new entity should be of the same financial strength as the Successful Bidder.

### **3.14 Structuring of the Bid Selection Process**

Single stage, double envelope bidding followed by reverse auction has been envisaged under this RfS. Bidders have to submit both Technical bid and Financial bid (Fixed Tariff) together in response to this RfS online. The preparation of bid proposal has to be in the manner described in Section 3.18.

## B. Second Envelope (Financial Bid) Evaluation (Step-2):

In this step evaluations shall be done based on the “Tariff” quoted by the bidders in the Electronic Form of Financial Bid. After this step, the shortlisted bidders shall be invited for the Reverse Auction.

- i) Second Envelope (containing Tariff) of only those bidders shall be opened whose technical bids are found to be qualified.
- ii) The bidders including its Parent, Affiliate or Ultimate Parent or any Group Company will have to submit bid (single application) quoting tariff per kWh for the project. Tariff can be quoted up to two places of decimal only.
- iii) In this step, evaluation will be carried out based on tariff quoted by the Bidders.
- iv) On completion of Techno-commercial bid evaluation, if it is found that the total aggregate capacity of the Solar Power Projects short-listed is lower than or equal to 600 MW, then the procedure as elaborated in Section 4.3.2 shall be followed.

Note: On completion of Techno-commercial bid evaluation, if it is found that only one bidder is eligible, opening of the financial bid of the bidder will be at the discretion of GUVNL. Thereafter GUVNL will take appropriate action in consultation with GERC.

- v) If the first-round tariff quoted is same for two or more bidders, then all the bidders with same tariff shall be considered of equal rank/ standing in the order.
- vi) All bidders with same tariff shall be eligible for reverse auction round (provided their rank is equal to or less than “n” as mentioned in Section 4.3.2).
- vii) Ranking of bidders after Financial Bid Evaluation: In case of financial bids received from all bidders are in the form of tariff, ranking of bidders shall be done accordingly. For example:

<b>Bidder</b>	<b>Submitted Financial bid</b>	<b>Ranking</b>
B8	Rs. 2.30 (Tariff in Rs./ kWh)	L1
B5	Rs. 2.70 (Tariff in Rs./ kWh)	L2
B1	Rs. 2.80 (Tariff in Rs./ kWh)	L3
B4	Rs. 2.80 (Tariff in Rs./ kWh)	L3
B2	Rs. 3.00 (Tariff in Rs./ kWh)	L4
B3	Rs. 3.30 (Tariff in Rs./ kWh)	L5
B7	Rs. 3.50 (Tariff in Rs./ kWh)	L6

Bidder	Submitted Financial bid	Ranking
B6	Rs. 3.60 (Tariff in Rs./ kWh)	L7
B10	Rs. 3.90 (Tariff in Rs./ kWh)	L8
B9	Rs. 4.00 (Tariff in Rs./ kWh)	L9
B11	Rs. 4.00 (Tariff in Rs./ kWh)	L9

### 4.3 Reverse Auction (Step-3)

4.3.1 The reverse auction shall be conducted on <https://www.bharat-electronictender.com>. Reverse Auction shall be carried out as specified in “Bid Information Sheet” of this RfS.

4.3.2 Total eligible bidders for reverse auction shall be decided as mentioned below:

Assuming

T = Total number of techno-commercially qualified bidders, and

$S_T$  = Capacity of the total number of techno-commercially qualified bidders

$S_k$  = Cumulative capacity till the ‘k<sup>th</sup>’ serial number bidder (not the ‘k<sup>th</sup>’ rank bidder) after ranking is done in ascending order from L1 onwards

$S_M$  = Total capacity of techno-commercially qualified bidders after ranking is done in ascending order from L1 onwards) such that ( $S_{M-1} < S_E$  MW and  $S_M \geq S_E$ )

$S_E$  = Eligible Capacity for Award

<b>SE =(Eligible capacity for award)</b>	<b>(i) In case <math>S_T &lt; 600</math> MW; <math>SE = 0.8 \times S_T</math>, (ii) In case <math>S_T \geq 600</math> MW; <math>SE = 0.8 \times S_T</math>, subject to maximum eligible capacity being 600MW.</b>	
<b>n = {</b>	<b>T, if T=m or m+1</b>	<b>Where m =Total number of techno-commercially qualified bidders (after ranking is done in ascending order from L1 onwards) such that (<math>S_{m-1} &lt; S_E</math> MW and <math>S_m \geq S_E</math>) and <math>1 \leq m \leq T</math></b>
	<b><math>m+(T-m)/2</math>, if <math>S_m \geq S_E</math> and T-m is even</b>	
	<b><math>m+(T-m+1)/2</math>, if <math>S_m \geq S_E</math> and T-m is odd</b>	

Total eligible bidders for e-Reverse Auction = Bidders from Sl. No. 1 to Sl. No. n.

For illustration,

Sl. No.	Techno commercially qualified Bidder	Rank	Capacity (MW)	T	M	S <sub>E</sub>	N	Shortlisted Bidders
1	B8	L1	250	7	3	600MW	5*	B8
2	B5	L2	200					B5
3	B1	L3	450					B1
4	B4	L4	200					B4
5	B2	L5	250					B2
6	B3	L6	200					
7	B7	L7	450					
			<b>2000</b>					

For Shortlisting of bidders for reverse auction):

Total bid capacity of techno-commercially shortlisted bidders = ST=2000 MW

Eligible capacity for award = S<sub>E</sub> = 600MW

S<sub>M</sub> = 900 MW

Therefore,  $n = [3 + (7-3)/2] = 5$  as per the above formula.

4.3.3 Shortlisted bidders for Reverse Auction will be able to login into <https://www.bharat-electronictender.com> for reverse auction 15 minutes before the start time of reverse auction.

- i) During 15 minutes prior to start of reverse auction process, the respective tariff along with the total project capacity of the bidder shall be displayed on its window.
- ii) The minimum decrement value for tariff shall be ₹ 0.01 per kWh. The bidder can mention its revised tariff which has to be at least 01 (one) paisa less than its current tariff.
- iii) Bidders can only quote any value lower than their previous quoted tariff taking into consideration of the minimum decrement value mentioned in previous Section. However, at any stage, increase in tariff will not be permissible. Bidders can improve their ranking by quoting the tariff lower than their last quoted tariff.
- iv) During Reverse Auction, the bidder shall not have the option of changing the total project capacity while quoting tariff during reverse auction.
- v) In the bidder's bidding window, the following information can be viewed by the bidder:
  1. Its tariff as their initial start price and there after last quoted tariff along with project capacity for which the bidder is qualified;

2. The list of all the bidders with their following details:  
Pseudo Identity, last quoted tariff and project capacity
- vi) The initial auction period will be of 30 (thirty) minutes with a provision of auto extension by 5 (five) minutes from the scheduled/ extended closing time. Such auto extension shall be effected if by way of reduction in tariff, a Bidder causes a change in its zonal placement at that instant. The 'zones' are as defined below:
  - (a) Green Zone: This zone consists of the Bidders who may be allocated their full quoted Project capacity if the auction is closed at that instant.
  - (b) Yellow Zone: This zone consists of the Bidders who may be allocated a part of their full quoted Project capacity if the auction is closed at that instant.
  - (c) Red Zone: This zone consists of the Bidders who will not be awarded their quoted Project capacity if the auction is closed at that instant.

If no such change as described above is effected during the last 5 minutes of auction period or extended auction period, then the reverse auction process will automatically get closed

#### **4.4 Selection of Successful Bidders**

4.4.1 The bidders shall be selected in the ascending order with lowest quoted tariff (being L1) till the capacity is exhausted.

4.4.2 The lowest quoting bidder will be allotted its qualified project capacity and then, next higher bidder will be allotted its qualified project capacity and so on, till the total capacity is exhausted by following the rules specified in Section 3

As detailed in Section 3, while allocating the project capacity to a bidder, if the balance project capacity is less than the total project capacity mentioned by the bidder or there is a mismatch of bidder's capacity with respect to plot capacity, then the balance capacity shall be awarded to the bidder till the total capacity is exhausted subject to a minimum allocation of 100 MW as the case may be and a bidder shall have to accept such partial allocation. In case the a Bidder refuses to accept such partial capacity offered by GUVNL, the Bank Guarantee against EMD submitted by such Bidder shall be encashed by GUVNL.

4.4.3 In case of tie, among two or more bidders (i.e. their last quoted tariff being the same) they will be considered in the chronological order of their last bid with preference to that bidder who has quoted his last bid earlier than others. It is noteworthy here that the preference for allocation of plot will also be decided based on ranks determined by following this rule.

4.4.4 In the above case (as mentioned in previous Section), if the time of quote also becomes exactly same among the bidders at a tie, then the ranking among these bidders shall be done as follow:

Step – 1: Lowest rank will be given to the bidder who has quoted the lowest in Financial Bid (Electronic Form) and so on. If there is also a tie among any of these bidders, then the following step (Step 2) will be followed.

Step – 2: Ranking will be done based on draw of lots.

- 4.4.5 At the end of selection process, GUVNL will have the right to decide on the issue of letter of Intent to the Selected Bidder or any of them based on the consideration of the price discovered. Further, subject to the outcome of the legal proceedings as mentioned at Section 1.1, GUVNL will consider the issuance of Letter of Intent (LOI) to the Successful Bidders. In case of Consortium being selected as Successful Bidder, the LOI shall be issued to the Lead Member of the Consortium.

In all cases, GUVNL's decision regarding selection of bidder through Reverse Auction or otherwise based on tariff or annulment of tender process shall be final and binding on all participating bidders.

Also, GUVNL shall reserve the right to short close the capacity lower than 600 MW at its discretion, if the prices are abruptly high. Additionally, the discretion to allot or not to allot the additional upto 600 MW capacity under greenshoe option shall be vested solely with GUVNL.

### **Some Bidding related Information for this Tender (Sealed Bid)**

The entire bid-submission would be online on ETS (unless specified for Offline Submissions). Broad outline of submissions are as follows:

#### Submission of Bid-Parts

- Envelope I (Technical-Bid)
- Envelope II (Financial-Bid)

Submission of digitally signed copy of Tender Documents/ Addendum

In addition to the above, the bidders are required to submit certain documents physically offline also as per Section 3.18 A, failing which the technical bids will not be opened.

Note: The Bidder should also upload the scanned copies of all the above mentioned original documents as Bid-Annexures during Online Bid-Submission.

### **Special Note on Security and Transparency of Bids**

Security related functionality has been rigorously implemented in ETS in a multidimensional manner. Starting with 'Acceptance of Registration by the Service Provider', provision for security has been made at various stages in Electronic Tender's software. Specifically for Bid Submission, some security related aspects are outlined below:

As part of the Electronic Encrypter™ functionality, the contents of both the 'Electronic Forms' and the 'Main-Bid' are securely encrypted using a Pass-Phrase created by the Bidder himself. Unlike a 'password', a Pass-Phrase can be a multi-word sentence with spaces between words (e.g. I love this World). A Pass-Phrase is easier to remember, and more difficult to break. It is mandatory that a separate Pass-Phrase be created for each Bid-Part. This method of bid-encryption does not have the security and data-integrity related vulnerabilities which are inherent in e-tendering systems which use Public-Key of the specified officer of a Buyer organization for bid-encryption. Bid-encryption in ETS is such that the Bids cannot be decrypted before the Public Online Tender Opening Event (TOE), even if there is

connivance between the concerned tender-opening officers of the Buyer organization and the personnel of e-tendering service provider.

**CAUTION:** All bidders must fill Electronic Forms™ for each bid-part sincerely and carefully, and avoid any discrepancy between information given in the Electronic Forms™ and the corresponding Main- Bid. If it is found during the Online Public TOE that a bidder has not filled in the complete information in the Electronic Forms™, the TOE officer may make available for downloading the corresponding Main-Bid of that bidder at the risk of the bidder. If variation is noted between the information contained in the Electronic Forms™ and the 'Main-Bid', the contents of the Electronic Forms™ shall prevail.

In case of any discrepancy between the values mentioned in figures and in words, the value mentioned in figures will prevail.

Additionally, the bidder shall make sure that the Pass-Phrase to decrypt the relevant Bid-Part is submitted to GUVNL in a sealed envelope before the start date and time of the Tender Opening Event (TOE).

There is an additional protection with SSL Encryption during transit from the client-end computer of a Supplier organization to the e-tendering server/ portal.

## **Other Instructions**

For further instructions, the bidder should visit the home-page of the portal <https://www.bharat-electronictender.com>, and go to the **User-Guidance Center**.

The help information provided through 'ETS User-Guidance Center' is available in three categories – Users intending to Register / First-Time Users, Logged-in users of Buyer organizations, and Logged- in users of Supplier organizations. Various links (including links for User Manuals) are provided under each of the three categories.

**Important Note:** It is strongly recommended that all authorized users of Supplier organizations should thoroughly peruse the information provided under the relevant links, and take appropriate action. This will prevent hiccups, and minimize teething problems during the use of ETS.

## **Seven Critical Do's And Don'ts for Bidders**

Specifically for Supplier organizations, the following '**SEVEN KEY INSTRUCTIONS for BIDDERS**' must be assiduously adhered to:

1. Obtain individual Digital Signing Certificate (DSC or DC) of Class 3 well in advance of your tender submission deadline on ETS.
2. Register your organization on ETS well in advance of the important deadlines for your first tender on ETS viz. 'Date and Time of Closure of Procurement of Tender Documents' and 'Last Date and Time of Receipt of Bids'. Please note that even after acceptance of your registration by the Service Provider, to respond to a tender you will also require time to

complete activities related to your organization, such as creation of -- Marketing Authority (MA) [ie a department within the Supplier/ Bidder Organization responsible for responding to tenders], users for one or more such MAs, assigning roles to them, etc. It is mandatory to create at least one MA. This unique feature of creating an MA enhances security and accountability within the Supplier/ Bidder Organization.

3. Get your organization's concerned executives trained on ETS well in advance of your first tender submission deadline on ETS
4. For responding to any particular tender, the tender (.i.e. its Tender Search Code or TSC) has to be assigned to an MA. Further, an 'Official Copy of Tender Documents' should be procured/ downloaded before the expiry of Date and Time of Closure of Procurement of Tender Documents.

Note: Official copy of Tender Documents is distinct from downloading 'Free Copy of Tender Documents'. Official copy of Tender Documents is the equivalent of procuring physical copy of Tender Documents with official receipt in the paper-based manual tendering system.

5. Submit your bids well in advance of tender submission deadline on ETS (There could be last minute problems due to internet timeout, breakdown, et al)
6. It is the responsibility of each bidder to remember and securely store the Pass-Phrase for each Bid-Part submitted by that bidder. In the event of a bidder forgetting the Pass-Phrase before the expiry of deadline for Bid-Submission, facility is provided to the bidder to 'Annul Previous Submission' from the Bid-Submission Overview page and start afresh with new Pass-Phrase(s)
7. ETS will make your bid available for opening during the Online Public Tender Opening Event (TOE) 'ONLY IF' your 'Status pertaining Overall Bid-Submission' is 'Complete'. For your record, you can generate and save a copy of 'Final Submission Receipt'. This receipt can be generated from 'Bid-Submission Overview Page' only if the 'Status pertaining overall Bid-Submission' is 'Complete'.

**NOTE:**

*While the first three instructions mentioned above are especially relevant to first-time users of ETS, the fourth, fifth, sixth and seventh instructions are relevant at all times.*

## **Additional DO'S AND DON'TS FOR BIDDERS Participating in e-Reverse Auction**

1. Get your organization's concerned executives trained for e-Reverse Auction related processes on ETS well in advance of the start of e-Reverse Auction.
2. For responding to any particular e-Reverse Auction, the e-Reverse Auction (.i.e. its Reverse Auction Search Code or RASC) has to be assigned to an MA.
3. It is important for each bidder to thoroughly read the 'rules and related criterion' for the e-Reverse Auction as defined by the Buyer organization.
4. It is important to digitally-sign your 'Final bid' after the end of e-Reverse Auction bidding event.

### **Minimum Requirements at Bidder's End**

Computer System with good configuration (Min PIV, 1 GB RAM, Windows 7 and above)

Broadband connectivity

Microsoft Internet Explorer 7.0 or above (Recommended version Internet Explorer 11)

Digital Certificate(s)
