SECTION I: INVITATION FOR BIDS

SECTION-I: INVITATION FOR BIDS

1.1 INTRODUCTION

- 1.1.1. Tata Power-D (hereinafter referred to as “Tata Power-D” or the “Buyer” or the “Procurer”) is a licensed electricity distribution company and a part of Tata Power Company Limited. Tata Power-D is engaged in the distribution of electricity and is committed to integrating renewable energy into its power procurement portfolio, in alignment with national renewable energy targets and sustainability objectives.
- 1.1.2. With the intervention of Government of India, the risks associated with solar and wind power sector have been brought down through measures as advanced arrangement of land and evacuation through solar parks, green energy corridors, a secure and standardized PPA for 25 years with elaborate mechanism for risk apportionment and compensations, payment security, etc.
- 1.1.3. Such de-risking of renewable energy (RE) sector, coupled with advancement of technologies and economies of scale has resulted in bringing down the tariffs in solar and wind power sector thereby aiding in rapid deployment of solar and wind capacity in the country.
- 1.1.4. However, the intermittent and variable nature of renewable energy and low- capacity utilization of the transmission system needs to be addressed. The problem will get pronounced with the addition of largescale renewable capacity. In order to manage the infirm nature of power, electricity distribution companies (DISCOMs) are procuring balancing power to provide grid stability and meeting their requirements during hours/periods of non-availability of renewable energy (RE).
- 1.1.5. The developments in renewable energy sector, an increased demand for ‘green power’ and a vision for realizing ‘true’ energy independence for the country, present a case for supply of round-the clock/demand based renewable power to the distribution companies (DISCOMs). Such power shall have elements of ‘firmness’ as well as ‘dispatchability’. The objective is to cater to the off-taker’s requirements based on demand completely from RE sources.
- 1.1.6. With the objective to enable procurement of Firm and Dispatchable RE power by DISCOMs from grid-connected Renewable Energy (RE) power projects, with Energy Storage through tariff based competitive bidding, Ministry of Power has issued “Guidelines for Tariff Based Competitive Bidding Process for Procurement of Firm and Dispatchable Power from Grid Connected Renewable Energy Power Projects with Energy Storage Systems” dated 09.06.2023. These Guidelines have been issued under section 63 of the Electricity Act, 2003 to enable procurement of Firm and Dispatchable RE power by DISCOMs from grid-connected Renewable Energy (RE) power projects, with Energy Storage through tariff based competitive bidding. This RfS document has

been prepared in line with the above guidelines, including subsequent amendments and clarifications, issued until the last date of bid submission of this RfS.

- 1.1.7. As part of the above scheme, Tata Power-D hereby invites proposals for Selection of RE Power Developer of Supply of 250 MW Firm and Dispatchable Power from Grid Connected Renewable Energy (RE) Power Projects with Energy Storage System in India under Tariff based Competitive Bidding, on Build-Own-Operate (BOO) basis. Tata Power-D shall enter into a Power Purchase Agreement (PPA) with the successful Bidders selected based on this RfS for purchase of Power for a period of 25 years based on the terms, conditions and provisions of the RfS and PPA. The RfS and PPA document is available for download from the ISN- ETS portal <https://www.bharat-electronictender.com> and Tata Power-D's website www.tatapower.com
- 1.1.8. The Bidders will be free to avail fiscal incentives like Accelerated Depreciation, Concessional Customs and Excise Duties, Tax Holidays etc. as available for such Projects. The same will not have any bearing on comparison of bids for selection. As equal opportunity is being provided to all bidders at the time of tendering itself, it is up to the bidders to avail various tax and other benefits. No claim shall arise on Tata Power-D for any liability if bidders are not able to avail fiscal incentives and this will not have any bearing on the applicable tariff. Tata Power-D does not however, give a representation on the availability of fiscal incentive and submission of bid by the bidder shall be independent of such availability or non-availability as the case may be of the fiscal incentives.
- 1.1.9. No separate Central Financial Assistance is envisaged for implementation of the Projects selected under this RfS.

1.1.10. Capacity Offered:

The minimum quantum of power that can be offered by the Bidder shall be 50 MW and the maximum quantum of power shall be 250 MW. The total cumulative capacity of power to be awarded under this RfS shall be 250 MW.

A Bidder, including its Parent, Affiliate or Ultimate Parent or any Group Company shall submit a single bid offering a minimum quantum of Contracted Capacity of 50 MW and a maximum quantum of 250 MW, in the prescribed formats. However, for Projects located in North-Eastern States or Projects connected to Maharashtra InSTS, the minimum quantum of Contracted Capacity that can be offered by a Bidder, including its Parent, Affiliate or Ultimate Parent or any Group Company, shall be 25 MW. The Contracted Capacity shall be quoted in multiple of 10 MW only.

Note: In case a common Company/Companies directly or indirectly hold(s) more than 10% but less than 26% shareholding in more than one Bidder participating in the RfS, each of such Bidders will be required to submit the Disclosure as per Format 7.8A. In all other cases, Format 7.8 will be applicable.

1.1.11. Bidders, including its Affiliates, who have already commissioned RE plants/storage plants or in process of constructing such plants and have untied capacity may also participate in the bid. In such case, they will be given the benefit of a longer duration of PPA, commensurate to the duration between the actual date of commencement of supply of power and Scheduled Commencement of Supply Date (SCSD). Bidders, including its Affiliates, who have already set up capacity or who have spare untied capacity (that is unencumbered from any power supply commitments or power purchase agreements) and is available for augmenting the proposed RE power under this RfS may also participate in the bid.

For avoidance of any doubt, it is clarified that ESS may be constituted as part of the Project or may be tied-up separately with a third party by the Bidder, for supply of power.

1.1.12. The bidders will be selected by the process of e-bidding (Single Stage Two Envelope Bidding Process. Envelope-I: Technical Bid and Envelope-II: Financial Bid) to be followed by e-reverse auction process for selection of bidders. For conducting electronic tendering, Tata Power-D is using the portal <https://www.bharat-electronictender.com> (i.e. ETS Portal) of M/s ISN Electronic Tender Services Ltd. The portal is also referred to as Electronic Tender System® (ETS).

5.4 Reverse Auction (Step 3):

5.4.1 The reverse auction for the total tendered capacity shall be conducted on the portal <https://www.bharat-electronictender.com>, on the day as intimated by Tata Power-D to the eligible bidders. Rules of the auction process are brought out below, and are also contained in Annexure-B of the RfS. As part of submission of their response to RfS, the Bidders shall submit the scanned copy of Annexure-B of the RfS duly signed and stamped by the Authorized signatory, as an acceptance of the provisions contained therein.

5.4.2 The Total eligible bidders for the reverse auction shall be decided as mentioned below:

Assuming:

T = Total Technically Qualified Bidders, and

Sk= Cumulative capacity till the 'k'th serial number bidder (not the 'k'th rank bidder) after ranking is done in ascending order from L1 onwards

SE =	(i) In case $ST \leq 250\text{MW}$, $SE = 0.8 \times ST$
(Eligible capacity for award)	(ii) In case $ST > 250\text{ MW}$, $SE = 0.8 \times ST$ subject to maximum capacity for eligible capacity being 250 MW.

Total eligible Bidders for e-Reverse Auction

- In case $(0.8 \times ST) \leq 250\text{ MW}$: all the techno-commercially qualified bidders whose financial bids are in line with the RfS provisions, will be shortlisted for e-RA. Accordingly, the no. of bidders shortlisted for e-RA, i.e., "n" = "T".
- In case $(0.8 \times ST) > 250\text{ MW}$: The lowest ranked bidder, i.e., the bidder quoting the highest tariff (the "H1 bidder") shall be eliminated at this stage, and the remaining Technically qualified bidders whose financial bids are in line with the RfS provisions, will be shortlisted for e-RA.

Accordingly, the no. of bidders shortlisted for e-RA, i.e., “n” = “T”-1

Note:

- i) In case more than one bidder is ranked as “H1” bidder, i.e., such bidders are at the same tariff, all such bidders will be eliminated at this stage.
- ii) The above elimination will take place subject to the condition that the total bid capacity after such elimination remains more than 250 MW and the minimum number of shortlisted bidders for e-RA, after elimination at this stage, remains 3. In the contradictory scenario, no elimination will take place at this stage.

For e.g. (Shortlisting of Bidders for reverse auction):

Scenario-1:

Total bid capacity of techno-commercially shortlisted bidders = ST=1300 MW

SI. No	Technically qualified Bidder	Rank	Capacity (MW)	T	SE	(0.8xST)	n*	Shortlisted Bidder
1	B3	L1	100	10	250 MW	200 MW	9	B3
2	B5	L2	200					B5
3	B1	L3	150					B1
4	B4	L4	50					B4
5	B2	L5	200					B2
6	B6	L6	150					B6
7	B7	L7	100					B7
8	B8	L8	100					B8
9	B9	L9	50					B9
10	B10	L10	200					

*n – 10-1=9 as per the above formula.

Upon shortlisting of bidders for e-RA, if it is found that more than the eligible bidders shortlisted for e-RA have quoted the same tariff ranking of bidders to be indicated in the e-RA window shall be decided based on draw of lots.

Scenario-2:

Total bid capacity of techno-commercially shortlisted bidders = ST=250 MW

SI. No	Technically qualified Bidder	Rank	Capacity (MW)	T	SE	(0.8xST)	n*	Shortlisted Bidder
1	B3	L1	50	10	250 MW	200 MW	4	B2
2	B2	L2	100					B3
3	B1	L3	50					B1
4	B4	L4	50					B4

*n =4 as per the above formula.

5.4.3 At least 2 days prior to reverse auction, an advance intimation regarding the date and time of the reverse auction will be sent by e- mail to all the bidders whose technical bids have been opened and found to be qualified. However, from this advance intimation it shall not be construed by the bidders that they have been shortlisted for Reverse Auction. Further, at least two hours before the scheduled start time of Reverse Auction, a system generated email for invitation for Reverse Auction will be sent to all those bidders only who have been shortlisted based on the criteria mentioned at Clause 5.4.2 above.

5.4.4 Shortlisted bidders for Reverse Auction will be able to login into the ISN-ETS portal of reverse auction 15 minutes before the start time of reverse auction

- i) During the 15 minutes prior to start of reverse auction process, the respective tariff of the bidder shall be displayed on its window.
- ii) The minimum decrement value for tariff shall be INR 0.01 per kWh. The Bidder can mention its revised discounted tariff which has to be at least 01 (One) Paisa less than its current tariff.
- iii) Bidders can only quote any value lower than their previous quoted tariff taking into consideration the minimum decrement value mentioned in the previous clause. However, at any stage, increase in tariff will not be permissible. Bidders can improve their ranking by quoting the tariff lower than their last quoted tariff.
- iv) During reverse auction, the Bidder shall not have the option of changing the total capacity of power offered while quoting tariff during reverse auction.
- v) In the bidder's bidding window, the following information can be viewed by the bidder:
 - a) Its tariff as the initial start price and there after last quoted tariff along with the contracted capacity for which the Bidder is qualified.
 - b) The list of all the Bidders with their following details: Pseudo Identity, last quoted tariff and contracted capacity
- vi) The initial auction period will be of 30 (thirty) minutes with a provision of auto extension by 8 (eight) minutes from the scheduled/ extended closing time. Such auto extension shall be effected if by way of reduction in tariff, a Bidder causes a change in its zonal placement at that instant. The 'zones' are as defined below:

Green Zone: This zone consists of the Bidders who may be allocated their full quoted Contracted capacity, subject to provisions of Clause 5.5, if the auction is closed at that instant.

Orange Zone: This zone consists of the Bidders who may be allocated a part of their full quoted Contracted capacity, subject to provisions of Clause 5.5, if the auction is closed at that instant.

Red Zone: This zone consists of the Bidders who will not be awarded their quoted Contracted capacity, subject to provisions of Clause 5.5, if the auction is closed at that instant.

Blue Zone: This Zone consists of the bidders who have submitted their bids with same time stamping and same tariff. These bidders may or may not be allocated their full or their partial capacity.

If no such change as described above is effected during the last 8 minutes of auction period or extended auction period, then the reverse auction process will automatically get closed. It may be noted that the green and orange coloured “zones” are indicative of the possibility of the bidder being eligible to be awarded its own quoted capacity (partially or fully), however, do not provide the guarantee of LoA being issued by Tata Power-D for the said capacity. LoA issuance will be solely governed by Clauses 5.5 & 5.6below.

5.5 Selection of Successful Bidders:

5.5.1 Subsequent to conclusion of the e-RA process, the bidders in the “Green” and “Orange” zones as per Clause 5.4.4(vi) above, will be listed in the increasing order of the tariffs discovered at the end of e-RA.

5.5.2 The bidders who fall within the range of (and including) the lowest tariff (L1 tariff) + 2% of the L1 tariff-hereinafter referred to as “the range”- will be declared as Successful Bidders under the RfS, subject to the following conditions:

- i) In case the cumulative capacity shortlisted as per the range exceeds SE (capacity eligible for award as per Clause 5.5.2), the list of Successful Bidders shall be limited by SE.
- ii) In a borderline i.e., the scenario wherein more than one bidder is eligible to be declared as Successful Bidder at the highest tariff (the tariff at the end of the range), and the cumulative capacity exceeds SE, time stamping of bidders shall be used to limit allocation of cumulative capacity up to SE. In such cases, those bidders who are at the same tariff, but they are ranked lower than the ones which fall within the cumulative capacity limit of SE, will not be eligible to be declared as Successful Bidders.

In other words, in every possible scenario, the total capacity to be awarded under the RfS shall be limited to SE.

- iii) Time stamping- In case of a tie among two or more Bidders (i.e. their last quoted tariff being the same), they will be considered in the chronological order of their last quoted tariff during the e-RA with preference to be given to that Bidder who has quoted his last tariff during the e-RA, earlier than others.

iv) In the above case, if the time of quote also becomes exactly same among the Bidders at a tie, then the ranking among these Bidders shall be done as follows:

Step 1: Lowest rank will be given to the Bidder who has quoted the lowest in Financial Bid (Electronic Form) and so on. If there is also a tie among any of these bidders, then the following step (Step 2) will be followed.

Step 2: Ranking will be done based on draw of lots

5.5.3 Illustration: Following example provides a possible illustration of the above methodology:

- L1 tariff discovered after e-RA: Rs. 4.00/kWh
- The range (L1+2% of L1): Rs. 4.08/kWh

Rank	Quoted Capacity (MW)	Cumulative Capacity (MW)	Time stamp	Tariff (INR/kWh)	Qualified as Successful Bidder
L1	100	100	NA	4.00	L1
L2	100	200	NA	4.01	L2
L2	50	250	NA	4.01	L2
L3	50	300	NA	4.02	L3
L4	100	400	NA	4.03	L4
L5	150	550	16:00:01	4.04	L5
L5	50	600	16:00:02	4.04	L5
L5	100	700	16:00:03	4.04	L5
L6	50	750	NA	4.07	L6
L7	200	950	NA	4.09	--

Note: The allocation of cumulative Contracted capacity shall be closed at SE. However, in no case, shall the capacity of a single Project selected under this RfS, be less than 50 MW, subject to provision of Clause 6.4 (Maximum Eligibility for Contracted Capacity Allocation for a Bidder) of the RfS.

In case the partial capacity offered to the last Successful Bidder as per Cl. 5.4.2 above, is lower than 50% of the total quoted capacity by such Bidder, the Bidder shall have an option to refuse such offered partial capacity, and the BG against EMD submitted by such Bidder shall be returned along with those of the unsuccessful Bidders. Such refusal shall be intimated to Tata Power-D within 7 days of completion of e-RA or not later than 7 days of issuance of LoAs by Tata Power-D, failing which, the awarded capacity shall be deemed to be accepted by the said Bidder.

In case the partial capacity offered to the last Successful Bidder as per Cl. 5.4.2 above, is greater than or equal to 50% of the total quoted capacity by such Bidder, it shall be mandatory for the last Bidder to accept the partial capacity offered against its quoted capacity, subject to the total cumulative capacity awarded under the RfS not exceeding SE. In case the last Successful Bidder refuses to accept such partial capacity offered by

Tata Power-D, the Bank Guarantee(s) against EMD submitted by such Bidder shall be encashed by Tata Power-D.

If the last Successful Bidder would not accept the partial Capacity offered, the next bidder in the concluded list of e-RA, may be offered the above partial capacity (subject to the quoted capacity of the bidder) at L1 tariff subject to meeting the eligibility criteria mentioned at Section-IV and so on.

5.6 Issuance of LoAs:

5.6.1 At the end of selection process, Conditional Letters of Award (LoAs) will be issued to the Successful Bidders discovered as above. The Conditional LoAs shall be awarded for the Contracted Capacity as quoted by the respective successful bidder, or the partial capacity, as the case may be. In case of a Consortium being selected as the successful Bidder, the Conditional LoA will be issued to the Lead Member of the Consortium.

5.6.2 In case Tata Power-D is unable to find buyers/off-takers for the tariffs as discovered after the bidding process, Tata Power-D reserves the right to annul the bid process without any financial implications to any of the parties concerned. Tata Power-D reserves the right to cancel any or all of the bids in view of higher tariff discovered after e-RA. In all cases, Tata Power-D's decision regarding selection of Bidder through Reverse Auction or otherwise based on tariff or annulment of tender process shall be final and binding on all participating bidders.

5.6.3 For a particular bidder, in case the finally modified capacity offered by Tata Power-D for signing of PPA is lower than the capacity for which the LoA was issued to the said Bidder, the respective Bidder may choose to reject such modified capacity, and will be allowed to exit the process without any liability to either party (i.e., Tata Power-D or the Bidder), and the said refused capacity will be offered to the next successful bidder as per the list of successful bidders. In case such offered partial capacity for signing of PPA is less than 50 MW, subject to provision of Clause 6.4 (Maximum Eligibility for Contracted Capacity Allocation for a Bidder) of the RfS., PPA will not be executed with such Bidder.

5.6.4 The PPA will be executed by Successful Bidders within 10 days from the date of Conditional LOA issued by Tata Power-D.

SECTION: VI

CONDITIONS OF CONTRACT

SECTION VI: CONDITIONS OF CONTRACT

6.1 Scope of Work:

- i) The RPD/REPG shall be responsible for Supply of the contracted capacity (total cumulative capacity under this RfS is 250 MW) of Firm and Dispatchable Power from Grid Connected Renewable Energy (RE) Power Projects based on generating system(s) including solar, wind or any other renewable resource as defined by MNRE for supply of RE Power combined with Energy Storage System including the transmission network up to the Interconnection/ Delivery Point, with the primary objective of supplying RE power to Tata Power-D, at its own cost and as per the provisions of the RfS and PPA. For this, the bidder/developer shall have either set up storage capacity itself; or tie up with energy storage system developers to meet the project parameters for ‘firmness and dispatchability’ and submit a single bid for the same as per terms and conditions stipulated in this RfS.
- ii) Developers who have already commissioned RE plants/storage plants or in process of constructing such plants and have untied capacity may also participate in the bid. In such case, they will be given the benefit of a longer period of PPA, commensurate to the duration between the actual date of commencement of supply of power and SCSD.
- iii) Irrespective of the contractual arrangement between the RE Power Generator and Energy Storage system Developer, if any, all the developer related liabilities, under these Guidelines and the PPA there under, shall be of the entity signing the PPA, and recognised as RE Power Generator (REPG)/RPD.
- iv) Obtaining all clearances, permit, licenses including arrangement of land, installation and ownership of the Project, along with obtaining connectivity and necessary approvals and interconnection with the ISTS network for supply of power to Tata Power-D, will be under the scope of the RPD.
- v) The Projects to be selected under this scheme provide for deployment of RE Power Projects. However, the selection of Projects would be technology agnostic.

6.2 Total capacity offered:

Selection of “Project Developer” or “Developer” or “RE Power Developer (RPD)” or “RE Power Generator (REPG) for supply of Firm and Dispatchable Power for total capacity of 250 MW will be carried out through e-bidding followed by e-Reverse Auction process.

6.2.1 Firm and Dispatchable RE Power Configuration:

- i) The term “Project” shall have the meaning as defined in Section-II of the RfS, and shall refer to the Project Capacity or the Installed Capacity/Rated AC Capacity as quoted by the bidder (at the time of bidding)/awarded to the Bidder (after issue of LoA).
- ii) Firm and Dispatchable RE Power are required to be designed for interconnection with the ISTS substation at voltage level of 132 kV or above.
- iii) This RfS has been issued for procurement of power from a cumulative “Contracted Capacity” of 250 MW, which corresponds to Firm and Dispatchable Power from generating system(s) including solar, wind or any other renewable resource as defined by MNRE for supply of RE Power combined with Energy Storage System.
- iv) The capacity (in MW) quoted by the Bidders in the Covering Letter (and the LoA issued by Tata Power-D) shall mean “Contracted Capacity”.
- v) For a Contracted Capacity of 150 MW (for eg.), the “Project Capacity/Installed Capacity” can be more than Contracted Capacity, i.e. 250 MW (for illustration purpose). Project Capacity shall mean rated AC capacities of RE components/ESS as declared to be installed under the PPA. It is to be noted that prior to commence of supply of power under the PPA, installation of the above rated capacity of RE components/ESS as declared in the PPA, will be verified by the Commissioning Committee
- vi) A “Project” under the RfS and PPA refers to the “RE Project” which forms part of the Firm and Dispatchable RE Power Configuration declared under the PPA.
- vii) Thus, a possible configuration of “Firm and Dispatchable RE Power Configuration” against a Contracted Capacity of 200 MW could be:
 - a) Solar PV component: 100 MW
 - b) Wind Power component: 50 MW
 - c) Energy Storage System (ESS) component: 50 MW
- viii) As evident above, a Firm and Dispatchable RE Power Configuration” therefore, comprises RE Project combined with Energy Storage System under the RfS and PPA.

Important Note:

- 1) Bidders may note that the above configuration is for illustration purpose only and Bidders are required to design their own configuration as per their suitability/viability to meet the requirements stipulated in the RfS).
- 2) In case of discrepancies with respect to the meaning of the terms as illustrated above, with usage of the above terms in other clauses of the RfS, the above

clauses, i.e., Cl. 6.2.1 (i)-(vii) of the RfS shall prevail.

- ix) The Firm and Dispatchable RE Power Configuration will be submitted by the bidder at the time of bid submission, and it shall remain unchanged until the issuance of LoA. The above configuration can be changed till the time of Financial closure. Also any change in delivery point(s) is /are allowed till the time of Financial closure. Provided that any extension in SCSD on account of such change (s) in configuration / delivery point / project location shall not be granted. Implications of any delay in obtaining connectivity and subsequently, compliance with financial closure / commencement of supply of power on account of the above, will be borne by the RPD. However, subject to provision of Clause no. 4.2.1, the RPD is allowed to increase/install additional RE generating capacity and/or Energy storage System (ESS) subsequent to the above deadline/beyond SCSD for the purpose of repowering and/or increase the quantum of Renewable Energy beyond the level initially committed. In case the rated capacities of the RE components are increased subsequent to the above deadline/beyond SCSD and such addition of RE Capacity leads to any additional transmission/other charges upon Procurer, as per the applicable regulations, then such additional transmission/other charges shall be borne by the RPD.
- x) Further, in case the Bidder chooses not to tie-up with any spare capacity until the bid submission deadline, subsequent tie-up with a spare capacity will not be allowed during the Term of the PPA.

For avoidance of any doubt, it is hereby clarified that ESS, if any, may be constituted as part of the Project or may be tied-up separately with a third party, by the RPD for supply of power. However, it must be noted that in case the ESS is charged from non- RE power, such ESS will be construed to be the non-RE component.

6.2.2 RPD has to offer power such that 100% of the annual energy offered corresponds to RE Power. RPD can, however, source up to 5% RE power (on energy terms) on annual basis from the green market sources/bi lateral agreements towards meeting the supply conditions stipulated in the RfS.

6.2.3 RPD shall combine the RE generating system with energy storage for ensuring that it achieves the required availability and supply of Firm and Dispatchable RE Power ensuring the performance criteria stipulated in the RfS, provided power from RE sources were used to store energy in the storage system.

6.3 Clearances Required from the State Government and Other Local Bodies:

6.3.1 The RE Power Developers/RPDs are required to obtain all necessary clearances and permits as required for setting up the RE Power Projects complemented with Power from

any other source, including but not limited to the following:

- i) No Objection (NOC)/Environmental clearance (if applicable) for the Project.
- ii) Forest Clearance (if applicable) for the land for the Project.
- iii) RPDs setting up projects in vicinity of Air Force bases/aerodromes, are advised to apply for necessary MoD clearances within 90 days of Effective Date of PPAs or 30 days from the date of possession of the land identified for the Project, whichever is later and forward the copies of application to Tata Power-D within 07 days of filing the applications.
- iv) In case of Projects being set up in the States of Gujarat & Rajasthan, the RPD shall abide by applicable Supreme Court Orders and MNRE's Guidelines on "Retrofitting of transmission lines and wind turbines to avoid bird collision in Great Indian Bustard(GIB) habitats of Rajasthan & Gujarat", vide OM No. 238/2/2019-Wind dated 22nd Feb 2019, and subsequent amendments and clarifications thereof.
- v) Any other clearances as may be legally required, in order to establish and operate the Project.

6.3.2 The above clearances, as applicable for the Project, will be required to be submitted to Tata Power-D prior to commissioning of the Project, if sought by Tata Power-D. In case of any of the clearances as indicated above being not applicable for the said Project, the RPD shall submit an undertaking in this regard, and it shall be deemed that the RPD has obtained all the necessary clearances for establishing and operating the Project. Any consequences contrary to the above shall be the responsibility of the RPD. The RPD shall also comply with all the laws, regulations, orders and procedures issued by the appropriate authority, applicable for setting up and implementing the Project.

6.3.3 The RPD shall be required to follow the applicable rules regarding project registration with the State Nodal Agency in line with the provisions of the applicable policies/regulations of the State where the Projects are being located. It shall be the responsibility of the RPD to remain updated about the applicable charges payable to the State Nodal Agency (SNA) under the respective State Solar Policy.

6.3.4 The RPD should apply for all the necessary approvals, permits and clearances not more than 90 days from the Effective Date of the PPA, which shall be complete in all respects, incorporating the clarifications/changes as required by the concerned authorities.

6.3.5 The above timeline shall be adhered to, in order to examine cases where the RPD faces delay in grant of the necessary approvals and permits, for a period substantially greater than the standard period of grant of approval by the respective organizations.

6.4 Maximum Eligibility for Contracted Capacity Allocation for a Bidder:

Following conditions shall be applicable to the Bidders for submission of bids against this RfS:

- 6.4.1 The minimum quantum of power that can be offered by the Bidder shall be 50 MW and the maximum quantum of power shall be 250 MW. The total cumulative capacity of power to be awarded under this RfS shall be 250 MW.

A Bidder, including its Parent, Affiliate or Ultimate Parent or any Group Company shall submit a single bid offering a minimum quantum of Contracted Capacity of 50 MW and a maximum quantum of 250 MW, in the prescribed formats. However, for Projects located in North-Eastern States or Projects connected to Maharashtra InSTS, the minimum quantum of Contracted Capacity that can be offered by a Bidder, including its Parent, Affiliate or Ultimate Parent or any Group Company, shall be 25 MW. The Contracted Capacity shall be quoted in multiple of 10 MW only.

Note: In case a common Company/Companies directly or indirectly hold(s) more than 10% but less than 26% shareholding in more than one Bidder participating in the RfS, each of such Bidders will be required to submit the Disclosure as per Format 7.8A. In all other cases, Format 7.8 will be applicable.

- 6.4.2 The total capacity to be allocated to a Bidder including its Parent, Affiliate or Ultimate Parent or any Group Company shall be up to 250 MW.
- 6.4.3 The evaluation of bids shall be carried out as described in Section-V of the RfS. The methodology for Allocation of Projects is elaborated in Section-V of the RfS.
- 6.4.4 Subject to the exception as per Clause 6.4.1 above, multiple bids from same company including its Parent/ Ultimate Parent/Affiliates/Group Companies shall make all the bids submitted by the group invalid.

6.5 RE Project Location:

- 6.5.1 The RE Projects can be located anywhere in India. For a single Project, the RE generation components, along with ESS installed, if any, may either be co-located, or may be located at different locations. The different components of “Firm and Dispatchable RE Power” i.e. solar, wind and any other source or storage can be connected with ISTS or InSTS network at different ISTS or InSTS sub- stations. However, Project location(s) should be chosen taking cognizance of the provision as per Clause 6.6 of the RfS.
- 6.5.2 The term “RE Project” shall have the meaning as defined in Section-2 of the RfS, and shall refer to the Project capacity as quoted by the bidder (at the time of bidding)/awarded to the Bidder (after issue of LoA).
- 6.5.3 In case the RPD wishes to set up more than one Project, then the Projects would need to be physically identifiable with separate injection point, control systems and metering arrangement.

Further, each project components (viz. Wind / Solar / ESS / any other RE source) shall have separate metering arrangement for metering of source wise energy generation for

meeting the respective RPO Obligations as applicable.

- 6.5.4 It may be noted that the offered RE Project may be relocated by the RPD until financial closure. Implications of any delay in obtaining connectivity and subsequently, compliance with financial closure/commencement of supply of power on account of the above, will be borne by the RPD. In case any change in project location by the RPD during the project construction period results in any modification in the GNA to be taken by the Tata Power-D, any additional charges/ penalties payable by the Tata Power-D in this regard shall be borne by the RPD. However, such location(s) should be chosen taking cognizance of the provision as per Clause 6.6 of the RfS.

6.6 Connectivity with the Grid at Interconnection Point/Delivery Points:

- 6.6.1 The Project should be designed for interconnection with the ISTS or InSTS in accordance with the prevailing CERC/MERC regulations in this regard. For interconnection with the grid and metering, the RPD shall abide by the applicable Grid Code, Grid Connectivity Standards, Regulations on Communication System for transmission of electricity and other regulations/procedures (as amended from time to time) issued by Appropriate Commissions and Central Electricity Authority (CEA). Minimum voltage level for interconnection at the ISTS or at Maharashtra InSTS shall be 132 kV. Different components of RTC power i.e., solar, wind and any other source or storage, can be connected with the grid at different ISTS or Maharashtra InSTS sub-stations.
- 6.6.2 The responsibility of getting the ISTS or Maharashtra InSTS connectivity shall entirely be of the RPD and shall be at the cost of the RPD, in line with applicable regulations. Such availability of transmission system being dynamic in nature, the Bidder has to ensure actual availability of power injection/evacuation capacity at an ISTS or Maharashtra InSTS substation. The transmission of power up to the point of interconnection where metering is done for energy accounting, shall be the responsibility of the RPD at its own cost. In case a RPD is required to use Intra STS (other than Maharashtra) to bring RE power at ISTS point, it may do so as per rule and regulations prescribed by the respective SERC in this regard. The maintenance of transmission system up to the Interconnection Point(s) shall be responsibility of the RPD, to be undertaken entirely at its cost and expense.
- 6.6.3 The arrangement of connectivity can be made by the RPD through a transmission line upto the Interconnection Point at ISTS or at Maharashtra InSTS. The entire cost of transmission including cost of construction of line, transmission charges, wheeling charges, SLDC/Scheduling charges, SOC, MOC, maintenance, losses etc. and any other charges from the Project up to and including at the Interconnection Point at ISTS or at Maharashtra InSTS will be borne by the RPD. Arrangements shall be put in place prior to commissioning of project / commencement of supply of power as regards the methodology for billing these expenses to the Tata Power-D.

6.6.4 The RPD shall be required to follow the Detailed Procedure as issued by CERC/CTU under the General Network Access under the Central Electricity Regulatory Commission (Connectivity and General Network Access to the inter-State Transmission System) Regulations, 2022, as well as other Regulations issued by CERC/CEA as amended from time to time. It is further clarified that the Entities (RPD and Tata Power-D) as indicated in the Detailed Procedure issued under the above Regulation, will be responsible for their respective obligation as notified in the Detailed Procedure, irrespective of the provisions of the RfS and PPA.

6.6.5 The Bidders are free to choose the ISTS or InSTS substations for Interconnection of the Project to the Grid on a pan-India basis. While doing so, the Bidders shall apply due diligence while choosing the proposed substation, and may choose their substations from any one of the following options:

- i) Existing substations having available margin as indicated by the respective substation owner.
- ii) Existing substations/ substations under construction where augmentation is under process or plans for augmentation have been announced.
- iii) Substations approved under the updated plan made available by the CTU on its website, subject to availability of requisite margin for grant of connectivity.

Bids indicating substations outside the above three choices will be liable for rejection.

Note: In case Bidder has already secured connectivity at any substation (s) specified under Clause 6.6.5, bid indicating such substation(s) shall also be considered.

6.6.6 The transmission connectivity to the RPD may be provided by the CTU/STU, as the case may be, prior to commissioning of the project on the request of the RPD, to facilitate testing and allow flow of infirm power generated into the grid to avoid wastage of power.

6.6.7 Metering arrangement of each Project shall have to be adhered to in line with relevant clause of the PPA. Two or more Projects can be connected to a common pooling substation from which the pooled power can be transferred to the CTU or Maharashtra STU substation through a common transmission line subject to the following conditions;

- i) Acceptance of such an arrangement by CTU/ RLDC or Maharashtra STU.
- ii) Energy injected by each Project will be recorded and jointly signed by respective RPDs and copies of the same will be submitted to Tata Power-D/CTU/Maharashtra STU as required.
- iii) The energy accounts are divided and clearly demarcated for the power supplied by the Project and are issued by the STU/SLDC/RLDC/RPC concerned.
- iv) In case of Pooling substation, losses in the transmission line between the Pooling substation and the ISTS substation, shall be apportioned among the RPDs who share

such a Pooling arrangement, based on their monthly generation.

- 6.6.8 The RPD shall comply with CERC/SERC regulations on Forecasting, Scheduling and Deviation Settlement, as applicable and are responsible for all liabilities related to Connectivity. The scheduling of the power from the Project as per the applicable regulation shall be the responsibility of the RPD and any financial implication on account thereof shall be borne by the RPD. For deviations from schedule, the DSM (Deviation Settlement Mechanism) shall be applicable as per the prevailing regulations. For RE component of the total power supplied, DSM as per RE regulations shall be applicable. The DSM charges at the generator ends shall be settled by the RPD. In order to remove potential discrepancies and ambiguities, the RPDs are hereby instructed that, as part of scheduling of power from the Project, they will be required to punch-in their respective schedules and subsequent revisions, by themselves, at the interfaces of all the RLDCs concerned for the corridor of power flow, including the RLDC of the Tata Power-D, as per the Regulations in force. Tata Power-D may facilitate in identification of any discrepancy and assist the RPD for its early rectification without any liability on Tata Power-D. The RPD shall be solely responsible for discrepancy identification and its rectification to avoid any rejection/less payment of invoices.
- 6.6.9 Reactive power charges and charges against power drawn from grid as per CERC/SERC regulations, shall be payable by RPD as per provisions of PPA. Pursuant to Clause 6.6.8 above, the Tata Power-D will be responsible for obtaining General Network Access (GNA), all transmission charges and losses and any other charges as applicable under the respective regulations beyond Delivery Point and up to the drawl point.
- 6.6.10 The RPDs will be required to apply for connectivity at the identified substation, as mentioned in the Covering Letter (Format 7.1), within 30 days of signing of PPA, and shall furnish copies of the application, complete in all respect, to Tata Power-D within 15 days of date of filing of application. RPD shall also have to provide the copy of in-principle grant of connectivity, final grant of connectivity, connectivity agreement/any other agreement(s) signed with STU/CTU etc. within 15 days of issuance of letter by CTU / signing of connectivity agreement, as the case may be, to Tata Power-D.

The RPD has to follow the timelines mentioned in the GNA regulation with respect to Connectivity. In case, connectivity has been revoked due to non-compliance of RPD, then the same may be considered as RPD's Event of Default and shall be dealt as per the provision of PPA / RfS.

In case the RPD fails to obtain the connectivity at a Substation identified by the Bidder, the same shall be immediately notified by the RPD to Tata Power-D.

In case the ESS component is located separately from the Solar PV/Wind generating components of a Project, the charges for charging and discharging the ESS, as applicable under GNA regulations or other applicable Regulations and other orders issued by MoP/CERC/MERC will be borne by the RPD as applicable.

6.7 Power Supply by the Firm and Dispatchable RE Power Developer:

6.7.1 Criteria for Power Supply

- a) The procurement shall be in power (MW) terms. The RPD shall supply the contracted capacity of Firm and Dispatchable Power from Renewable Energy (RE) Power Projects based on generating system(s) including solar, wind or any other renewable resource as defined by MNRE for supply of RE Power combined with Energy Storage System keeping the availability of minimum 90 % during peak hours of contracted capacity in MW.
- b) The Bidders will declare the annual CUF for the contracted capacity at the time of submission of response to RfS. The declared annual CUF shall in no case be less than 40%. The RPDs will be allowed to revise the same once within first year after Commencement of Supply of Power Date (CSD), subject to condition that the revised annual CUF shall not be less than 90 % of the CUF initially quoted by the Bidder, however the revised annual CUF shall in no case be less than 40%. Thereafter, the CUF for the contracted capacity shall remain unchanged for the entire term of the PPA. It shall be the responsibility of the RPDs, entirely at its cost and expense set up adequate RE Capacity or ESS/tie up the capacity as may be necessary to achieve the required CUF. The RPDs shall maintain generation so as to achieve annual CUF within + 10% and -10 % of the declared value till the end of the PPA duration of 25 years.
- c) The RPD shall be allowed to schedule/supply only upto 50% of the contracted capacity of Firm and Dispatchable Power (in MW) from Renewable Energy (RE) Power Projects, during 11:00 hours to 15:00 hours, for the initial 3 years. For the remaining 22 years of PPA period, there shall be no such restriction on scheduling of power.
- d) The criteria as mentioned at 6.7.1 (a), (b) and (c) above will, however, be relaxable by Tata Power-D to the extent of non-availability of grid for evacuation which is beyond the control of the RPDs. For the first year of operation of the project, the annual CUF shall be calculated based on the first year after Commencement of Supply Date of contracted capacity. Subsequently, the annual CUF will be calculated every year from 1st April of the year to 31st March next year.
- e) For calculation of peak hours availability shortfall, availability will be calculated at the end of each month for every Contract Year.
- f) The peak hours shall be from 17:00 Hours to 24:00 Hours, out of which any 4 hours of a day shall be chosen by Tata Power-D, for offtake of power, on a daily basis.

Energy Storage Systems (ESS) shall constitute part of the Project. It is clarified that ESS charged using a source other than RE power would not qualify as RE power.

The RPD is mandated to install ESS capacity @minimum 250 kWh per MW capacity being contracted under the PPA. However, the RPD may install ESS of higher capacity and shall design the FDRE project configuration so as to achieve the stipulated peak hours availability and annual generation from the project.

The RPD may supply the required energy during Peak Hours either from the stored energy in the ESS or from any RE generation from the Project available during the Peak Hours. After fulfilling the obligations of assured peak power supply, the ESS may be utilized for any other application by the RPD within the availability of connectivity.

- g) Unless otherwise notified by the RPD, the declared Availability shall be deemed to be 100% (one hundred per cent) thereof at all times during Peak hours. The RPD shall declare the Availability corresponding to the Project for each time-block within the timelines as per Applicable Laws and Regulations. It is to be noted that the summation of generation schedule of RE Power and Power from any other source cannot be more than the Contracted Capacity in any time block.
- h) Tata Power-D, in accordance with Applicable Laws and Regulations thereunder, issue instructions to the RPD for production of electricity and despatch thereof to the Grid during such period and in such volume as it may specify in its instructions. Provided that the Tata Power-D shall not ask for despatch in excess of the declared Availability by the RPD, unless mutually agreed between the RPD and the Tata Power-D.
- i) Pursuant to the provisions of Clause 6.7.1 (e) above, the RPD shall plan the despatch of electricity and convey its availability for scheduling thereof by the SLDC or RLDC, as the case may be, and shall supply electricity in accordance with the provisions of the Grid Code and the Electricity Act, 2003.
- j) It is mandated to make available the plant to the Tata Power-D as per availability criteria mentioned above. The generated energy shall be dispatched through scheduling of power by the Tata Power-D.
- k) The Energy Storage System (ESS) component charged with RE sources bought under this RfS shall be eligible for RPO compliance.
- l) It is to be noted that the summation of generation schedule of RE Power by the Procurer from multiple sources and/or locations cannot be more than the Contracted Capacity specified in the RfS or PPA, considering the applicable losses. The Generator may, however, apply for connectivity and GNA (if applicable), in accordance with extant Regulations.

6.7.2 Shortfall in Firm and Dispatchable RE Power Offered:

- a) Subsequent to commencement of SCSD, in case of shortfall in 90% availability

during the Peak Hours to be calculated on monthly basis, on account of reasons attributable to the RPD, such shortfall in performance shall make the RPD liable to pay the liquidated damage provided in the PPA (Power Purchase Agreement). The above damage shall be applied to the amount of shortfall in generation corresponding to the shortfall in availability during the peak hours to be calculated on monthly basis and the same shall be deducted from the invoicing of monthly bill.

- b) If for any Contract Year, it is found that the RPD has not been able to supply minimum energy corresponding to the value of annual CUF within the permissible lower limit of CUF declared by the RPD, on account of reasons primarily attributable to the RPD, such shortfall in performance shall make the RPD liable to pay the liquidated damages as per criteria mentioned below at Clause 6.7.2 (c).
- c) In case of shortfall in the availability of contracted capacity during peak hours and the supply of energy corresponding to minimum CUF as specified in Clauses 6.7.2 (a) and 6.7.2 (b) respectively, for reasons attributable to RPD, the RPD shall be liable to pay to the Procurer, penalty for such shortfall in availability and supply of energy. Penalty for not meeting the stipulated availability during peak hour and supply of energy on annual basis shall be equal to one and a half times the tariff for the number of units not supplied. An illustration for determination of Liquidated Damages for the above- mentioned scenarios are mentioned in Annexure-D.
- d) The performance criteria as per Clause 6.7.1 above shall not be applicable for the Contract Year ending on 31st March immediately after SCSD of the contracted capacity.
- e) The detailed list of documents required for verification of energy supply and performance of the Projects will be intimated to the Developers subsequent to commissioning and commencement of supply of power. For each Contract Year, the above data will be required to be submitted by the respective Developers to Tata Power-D within 30 days after expiry of the previous Contract Year, for verification of the performance parameters for calculating applicable compensation on account of shortfall.

Note: In a particular Contract Year, in case of shortfall in Peak availability of 90% and annual shortfall in supply of energy corresponding to minimum CUF as specified in Clauses 6.7.1 (a) and 6.7.1 (b) respectively, both damages shall be applicable. However, damages on account of annual CUF shall be calculated subject to adjustment of damages on account of Peak Hour availability. Please refer the illustration at Annexure-D.

- f) RPD shall agree that the methodology specified herein above for calculation of liquidated damages payable by the RPD for shortfall in power offered is a genuine and accurate pre- estimation of the actual loss that will be suffered by Tata Power-D. RPD shall further acknowledge that a breach of any of the obligations contained herein result in injuries and that the amount of the liquidated damages or the method of calculating the liquidated damages specified in this document is a genuine and

reasonable pre- estimate of the damages that may be suffered by the Tata Power-D in each case specified under the PPA.

- g) However, this damage shall not be applicable in events of Force Majeure identified under the PPA with Tata Power-D, affecting supply of power by the RPD.

6.7.3 Excess Generation:

In order to allow optimization of operation of RE power plant, the RPD is allowed to supply power from the RE power plant in excess of contracted capacity, to any third party or power exchange without requiring any No-Objection Certificate (NOC) from the Procurer. The RPD may also sell the power which was offered on day ahead basis to the Procurer (within Contracted Capacity) but not scheduled by the Procurer, to any third party or in power exchange without requiring NOC from the Procurer. However, it may be noted that at any instance of energy supply from the Project, priority shall be accorded to meet the energy requirements as per PPA, before selling any quantum of energy in the open market. The RPD may repower the Project at any stage, if required in order to meet the generation or availability requirement of this Project.

In case at any point of time, the peak power from the Firm and Dispatchable RE Power configuration reached is higher than the Contracted Capacity and causes disturbance in the system at the point where power is injected, the RPD will have to forego the excess generation and reduce the output to the Contracted Capacity to ensure compliance with grid requirement.

Any instance of third-party sale of power from the Project by the RPD / REPG, while the demand / contracted Capacity specified in the PPA remains unfulfilled, shall constitute a breach of RPD's obligations under the PPA and make the RPD liable for penalty @1.5 times of extant market rate/kWh (reference rate being the applicable rate on the Indian Energy Exchange (IEX)) for the quantum of such sale).

6.8 Commencement of supply of Power:

RPD shall commence the supply of Firm and Dispatchable RE Power from the date as specified in the PPA and as per the commencement of supply schedule specified at Clause 6.8.2 below. In case, RPD set up new RE Project/ Energy Storage System to supply Firm and Dispatchable RE Power under this RfS, Commencement of supply of power / Commissioning of the Project shall be carried out by the RPD in line with the procedure as per the PPA document. Project commissioning and declaration of Commercial Operation Date (COD) shall be governed by the Central Electricity Regulatory Commission (Indian Electricity Grid Code) Regulations, 2023, as amended from time to time.

It is clarified that Tata Power-D shall bear no responsibility in declaration of commissioning/COD of the Project. Tata Power-D's scope will be limited to verifying the installation of rated capacity(ies) of the Project, with respect to the committed

Installed Capacity as part of the PPA. The date of onset of commercial offtake of power by Tata Power-D shall be determined as the date of commencement of power supply under the RfS/PPA. Prior to declaration of commencement power supply, the RPD shall submit Commissioning certificate for the corresponding Installed Capacity to Tata Power-D as part of the requisite documents.

6.8.1 Part Commencement of supply of Power:

Part Commencement of Supply of Power of the Project shall be accepted by Tata Power-D subject to the condition that the Minimum Capacity for acceptance of first and subsequent part(s) shall be 50 MW (with the last part being the balance Contracted Capacity), without prejudice to the imposition of penalty, in terms of the PPA on the part which has not yet commenced supply of power. However, the SCSD will not get altered due to part- commencement of supply of power. Irrespective of dates of part or full commencement of supply of power, the PPA will remain in force for the period specified in the bid. Irrespective of dates of part commencement of supply of power, the PPA will remain in force for a period of 25 years from the Scheduled Commencement of Supply Date or the date of commencement of full contracted Capacity, whichever is later.

6.8.2 Commencement of Supply Schedule and Liquidated Damages Not Amounting to Penalty for Delay in Commencement of Supply:

- i) The Scheduled Commencement of Supply of power Date (SCSD) for the full contracted capacity shall be the date as on 24 months from the Effective Date of the PPA or any other date prior to the above mentioned dates as declared by the RPD (subject to acceptance by the Tata Power-D). Tata Power-D is willing to procure power from 1 May, 2027. Accordingly, the Bidders may suggest the date for commencement of supply prior to 24 months from the Effective Date of the PPA.
- ii) The maximum time period allowed for commencement of supply of power for the full contracted capacity with applicable liquidated damages, shall be limited to the date as on 06 months from the SCSD or the extended SCSD (if applicable).
- iii) In case of delay in commencement of supply of power for the full contracted capacity beyond the SCSD until the date as per Clause 6.8.2.ii above, as part of the liquidated damages, the total PBG amount for the contracted capacity shall be encashed on per-day-basis and proportionate to the balance capacity for which supply of power not commenced.
- iv) In case commencement of supply of power for the full contracted capacity is delayed beyond the date as per Clause 6.8.2.ii above, the PPA capacity shall stand reduced/amended to the contracted capacity that has commenced supply of power within the period of SCSD plus 6 (six) months. The PPA for the balance contracted capacity that has not commenced supply of power shall stand terminated.

- v) It is to be noted that in case, RPD set up new RE Project/ Energy Storage System to supply Firm and Dispatchable RE Power under this RfS, commencement of supply of power/part supply of power of the Project will not be declared until the RPD demonstrates possession of land in line with Clause 6.14 (COD), in addition to the other conditions as per the Commissioning Procedure. For part commencement of supply of power, portion of land on which the part of the project is commissioned should be under clear possession of the RPD in accordance with clause 6.14 of the RfS.
- vi) The date of onset of commercial offtake of power by Tata Power-D shall be determined as the date of commencement of power supply under the RfS/PPA. Prior to declaration of commencement power supply, the RPD shall submit COD certificate for the corresponding Installed Capacity to Tata Power-D as part of the requisite documents.

6.8.3 Delay in commencement of supply of power on Account of Delay in GNA Operationalization

6.8.3.1 The responsibility of obtaining General Network Access (GNA) shall be of the Tata Power-D prior to commissioning of the Project/commencement of supply of power. Subsequent to grant of connectivity, in case there is a delay in grant/operationalization of GNA by the CTU and/or there is a delay in readiness of the ISTS substation at the Delivery Point, including readiness of the power evacuation and transmission infrastructure of the ISTS network until SCSD of the Project capacity (contracted capacity), and it is established that:

- i) The RPD has complied with the complete application formalities as per Clause 6.6.4 above and as per the Detailed Procedure as issued by the CTU,
- ii) The RPD has adhered to the applicable regulations/ procedures in this regard as notified by the CERC/CEA, and
- iii) The delay in grant of connectivity/GNA by the CTU and/or delay in readiness of the ISTS substation at the Delivery Point, including readiness of the power evacuation and transmission infrastructure of the ISTS network, is a factor attributable to the CTU/transmission licensee and is beyond the control of the RPD;

The above shall be treated as delays beyond the control of the RPD and SCSD for such Projects shall be revised as the date as on 60 days subsequent to the readiness of the Delivery Point and power evacuation infrastructure and/or grant/operationalization of GNA. Decision on requisite extension on account of the above factor shall be taken by Tata Power-D.

6.8.3.2 In case of delay in commissioning of Project due to reasons beyond the reasonable control of the RPD, Tata Power-D may extend the SCSD after examining the issue on a case-to-case basis. In case of change in Project location(s) by the RPD, extension

requests under this clause shall be dealt by Tata Power-D on case-to-case basis. For avoidance of ambiguity, it is clarified that for decisions made under this Clause, the phrase “change in Project location” or its similar connotations, shall refer solely to change in Delivery Point(s) of the Project.

6.8.3.3 Further, in case of delay in commencement of power supply on account of reasons solely attributable to the RPD, resulting in any liquidated damages/penalty levied on the Tata Power-D including Transmission charges under the GNA Regulations and/or applicable regulation as notified by CERC, such damages/penalty shall be passed on to the RPD.

6.8.4 Early commencement of supply of power:

- i) The RPD shall be permitted for commencement of supply of power for the full contracted capacity as well as part contracted capacity of the Project even prior to the SCSD, subject to availability of transmission connectivity and General Network Access. Early commencement of supply of power of the Project will be allowed solely at the risk and cost of the RPD, and first right of refusal for offtake of such power will vest with the Tata Power-D. In case Tata Power-D agrees to purchase power from such early part/full commencement of power supply prior to SCSD, such power will be purchased by Tata Power-D at the PPA tariff.

In case Tata Power-D does not agree to purchase such energy, early part/full commissioning of the Project shall still be allowed and the RPD will be free to sell such energy to a third party until SCSD or the date of commencement of procurement of power from the Project as notified by Tata Power-D, whichever is earlier. However, early part/ full commissioning of the Project and subsequent energy procurement from the same shall be subject to the approval of Tata Power-D. Such intimation regarding consent to procure energy from early commissioning shall be provided by Tata Power-D within 15 days of receipt of the request being made by the RPD, beyond which it would be considered as deemed refusal.

- ii) In case of multiple project components and if one or more such component (wind, solar or other RE Power generating system) is ready for injection of power into the grid, but the remaining component is unable to commence supply of power, the Generator will be allowed to commence supply of power from such component which is ready outside the ambit of PPA, with first right of refusal for such power being vested with the Tata Power-D. In case Power-D decides to buy such discrete component(s) power outside the PPA, such power shall be purchased at upto 50% of the PPA Tariff.

Following should be noted under this scenario:

- a) The above scenario does not qualify under the provisions of Part/Early Commencement of power supply under the RfS and PPA. This is a special scenario wherein in case one or more project component(s) is/are ready, the

power supply from such component is not wasted.

- b) The terms “SCSD” and “Commencement of supply of power” as per the RfS and PPA will not be applicable for such component. Commissioning/injection of power from such component will be allowed only if the same is allowed as per the applicable regulations.
- c) The above scenario will be applicable until the RPD is ready to commence supply of power from the Project as per the provisions of “Early and/or Part commencement of supply of power” from the Project.

6.9 Performance Bank Guarantee (PBG):

- 6.9.1 Bidders selected by Tata Power-D based on this RfS shall submit Performance Guarantee for a value @ INR 30.65 Lakhs/MW (INR 30,65,000/MW) corresponding to the Contracted Capacity for which PPA is being signed prior to signing of PPA. It may be noted that successful Bidders shall submit the Performance Guarantee according to the Format 7.3C with a validity period up to (& including) the date as on 9 months after the SCSD. On receipt and after successful verification of the total Performance Bank Guarantee in the acceptable form, the BG submitted towards EMD shall be returned by Tata Power-D to the successful Bidder. It may be noted that PPA will be signed only upon successful verification of the PBG submitted by the RPD. Electronic Bank Guarantee (e-BG) is also acceptable against PBG under this RfS

Further, in case of delay in part/full commencement of supply of power beyond SCSD, prior to declaration of commencement of supply by the RPD from such part/full Contracted Capacity, the RPD shall be required to submit an additional PBG corresponding to the amount of applicable penalty, as per provisions of Clause 6.8.2, on that part/full Contracted Capacity.

- 6.9.2 The PBG is required to be submitted in the name of the entity signing the PPA. In case of PPA being eventually signed with the SPV incorporated/utilized by the successful bidder, the PBG may be submitted in the name of the successful bidder at an earlier date, if the bidder chooses to do so, and the same shall be replaced by the PBG issued in the name of the SPV, prior to signing of PPA
- 6.9.3 The RPD shall furnish the PBG from any of the Scheduled Commercial Banks as listed on the website of Reserve Bank of India (RBI) and amended as on the date of issuance of bank guarantee. Bank Guarantee issued by foreign branch of a Scheduled Commercial Bank is to be endorsed by the Indian branch of the same bank or State Bank of India (SBI). In case of the Project being implemented through a SPV incorporated by the successful bidder, the PBG shall be furnished in the name of the SPV, except for the case as indicated in Clause 4.4.1(ii) of the RfS.
- 6.9.4 The format of the Bank Guarantees prescribed in the Format 7.3 A (EMD)/ 7.3 C (PBG) shall be strictly adhered to and any deviation from the above Formats shall result in

rejection of the EMD/PBG and consequently, the bid. In case of deviations in the formats of the Bank Guarantees, the corresponding PPA shall not be signed.

- 6.9.5 Tata Power-D has agreed to accept the PBG in the form of an unconditional and irrevocable Bank Guarantee instead of the cash deposit with the clear position intimated to the bidder that the PBG shall be encashable for being appropriated by Tata Power-D in terms of the guarantee as in the case of appropriation of the cash deposit lying with Tata Power-D.
- 6.9.6 The selected Bidder for the Project selected based on this RfS is required to sign PPA with Tata Power-D within the timeline as stipulated in Clause 6.11 of the RfS. In case, Tata Power-D offers to execute the PPA with the Selected Bidder and if the Selected Bidder does not submit the requisite documents as per Clause 6.12 (Financial Closure) of the RfS, or does not meet eligibility criteria upon submission of documents, or does not execute the PPA within the stipulated time period, then the Bank Guarantee equivalent to the amount of the EMD shall be encashed by Tata Power-D from the Bank Guarantee available with Tata Power-D (i.e. EMD or PBG) as liquidated damages not amounting to penalty, the selected Project shall stand cancelled and the selected Bidder expressly waives off its rights and objections, if any, in that respect.
- 6.9.7 The Bank Guarantees have to be executed on non-judicial stamp paper of appropriate value as per Stamp Act relevant to the place of execution.
- 6.9.8 All expenditure towards execution of Bank Guarantees such as stamp duty etc. shall be borne by the Bidders/RPDs. Any Bank Guarantee or amendment to be submitted as part of the bidding process / contract execution, shall be effective only when the BG issuance message is transmitted by the issuing bank through SFMS to HDFC Bank Ltd, Ground Floor, Jehangir Building, M G Road, Fort, Mumbai, Maharashtra, 400001, IFSC code: HDFC0000060, Client Name: The Tata Power Co. Ltd.
- 6.9.9 In case of Bank Guarantees issued by foreign branch of a Scheduled Commercial Bank, the same is to be endorsed by the Indian branch of the same bank or SBI, and the endorsing bank would be required to provide the SFMS confirmation.
- 6.9.10 After the bidding process is over, Tata Power-D shall release the Bank Guarantees towards EMD of the unsuccessful Bidders within 15 days after the completion of e-Reverse Auction. The PBG of RPDs shall be returned to them, within 45 days after successful commissioning of their projects and commencement of supply of power for contracted capacity as per Terms of PPA, after taking into account any liquidated damages due to delays in commencement of supply of power as per Clause 6.8.2 and 6.8.3.1 of the RfS.
- 6.9.11 **Payment on Order Instrument (POI):** As an alternative to submission of PBG as above, the RPD/REPG also has an option to submit a letter of undertaking issued by either of the following three organizations, viz. (i) Indian Renewable Development agency Limited (IREDA) or (ii) Power Finance Corporation Limited or (iii) REC Limited. This Letter of

Undertaking shall be issued as “Payment on Order Instrument” (POI), wherein the POI issuing organization undertakes to pay in all scenarios under which the PBG would be liable to be encashed by Tata Power-D within the provisions of RfS/PPA. This instrument would have to be furnished as per Format 7.3 D of the RfS, within the timelines as per Clause 6.9.1 above, for the amount and validity period as per those Clause 6.9.1 above. In case the RPD /REPG chooses to submit POI, delay in submission of the POI beyond the timeline stipulated at Clause above, will be applicable in this case too.

The term “Performance Bank Guarantee (PBG)” occurring in the RfS shall be read as “Performance Bank Guarantee” (PBG)/Payment on Order Instrument (POI)”.

6.10 Not Used

6.11 Power Purchase Agreement (PPA):

6.11.1 Tata Power-D shall enter into Power Purchase Agreement (PPA) with Bidders selected based on this RfS within 10 days from the date of issuance of conditional LOA. A copy of standard PPA to be executed between Tata Power-D and the selected RPD is available on ISN- ETS Portal, CPP portal and also on Tata Power-D’s website. PPA will be executed between Tata Power-D and selected bidder or its SPV for the Project.

6.11.2 PPA will be executed between Tata Power-D and the RPD as per the breakup of the Contracted Capacity awarded to the Bidder. The RPD shall provide the configuration of the contracted capacity, i.e. the break- up of the Contracted Capacity quoted, in the Covering Letter (Format 7.1), which shall remain unchanged until issuance of LoA.

Subsequent to issuance of LOA, the above configuration can be changed till the time of financial closure, subject to provisions stipulated in clause 6.2.1.

Further, for the contracted capacity awarded, the bidder shall provide a tentative hourly generation profile for a representative day for a single year, indicating tentative energy (MWh) and power (MW) to be supplied under the PPA.

Delay in meeting the project execution timeline on account of changes in the project parameters from the data as submitted in the Covering Letter (Format 7.1), shall be at the risk and cost of the Successful Bidder.

In case any change in project location by the RPD during the project construction period results in any modification in the GNA to be taken by the Tata Power-D, any additional charges/ penalties payable by the Tata Power-D in this regard shall be borne by the RPD.

6.11.3 The PPAs shall be valid for a period of 25 years from the Scheduled Commencement of Supply Date (SCSD) or the date of commencement of supply of full Contracted Capacity, whichever is later. Any extension of the PPA period beyond 25 years shall be through mutual agreement between the RPD and Tata Power-D.

6.11.4 The Performance Bank Guarantee as per Clause 6.9 above shall be submitted by the RPD prior to signing of PPA. Before signing of PPA between Tata Power-D and the RPDs, Tata Power-D will verify the shareholding of the Project Company along with a copy of complete documentary evidence. If at this stage, it is found that the documents furnished by the RPDs are false / misleading or misrepresented in any way, then the provisions contained in this RfS will be applicable.

6.11.5 Successful bidders will have to submit the required documents to Tata Power-D within 7 days from the issue of LoA. In case of delay in submission of documents beyond the period as mentioned above, Tata Power-D shall not be liable for delay in verification of documents and subsequent delay in signing of PPA. Effective Date of the PPA shall be the date of signing of PPA.

In case Tata Power-D intimates to the Successful Bidder, a particular date as the date for signing of PPA and the PPA signing gets delayed on account of reasons attributable to the RPD, the date as specified by Tata Power-D shall become the Effective Date of the PPA, irrespective of the date of signing of PPA.

6.11.6 The RPDs are free to operate their projects after expiry of the 25 years of PPA period if other conditions such as land lease etc., permit. However, any extension of the PPA period beyond 25 years shall be through mutual agreements between the RPD and Tata Power-D as approved by the Appropriate Commission, provided that the arrangements with the land and infrastructure owning agencies, the relevant transmission utilities and system operators permit operation of the Project beyond the initial period of 25 years.

6.11.7 **Applicable Tariff:**

“Applicable Tariff” means the final quoted single tariff, which shall be quoted for 25 years of term of the of PPA. The tariff shall be quoted at the delivery point. The tariff shall be quoted specifically as per the instructions laid out in the RfS.

6.12 Financial Closure or Project Financing Arrangements:

6.12.1 The Projects shall achieve Financial Closure by the date as on 12 months prior to the SCSD/ extended SCSD.

6.12.2 At the stage of financial closure, the RPDs shall report 100% tie-up of Financing Arrangements for the Projects. In this regard, the RPD shall submit a certificate/necessary document from all financing agencies regarding the tie-up of 100% of the funds indicated for the Project, including arrangements of funds in the form of Equity. The RPD shall also submit the DPR of the Project, detailing out project configuration and proposed commissioning schedule of the Project.

6.12.3 Checklist of documents to be submitted at this stage is provided at Annexure-C of the RfS.

- 6.12.4 In case of default in achieving above condition as may be applicable within the stipulated time, Tata Power-D shall be entitled to encash PBG/POI and shall remove the Project from the list of the selected Projects, unless the delay is on account of factors not owing to any action or inaction on the part of the RPD, or caused due to a Force Majeure as per PPA. An extension can however be considered, on the sole request of RPD, on advance payment of extension charges of INR 1,000/- per day per MW. This extension will not have an impact on the obligation of RPD to achieve commissioning by the Scheduled Commissioning Date of the Project. Subsequent to the completion of deadline for achieving financial closure, Tata Power-D shall issue notices to the RPDs who are not meeting the requirements of Financial Closure as per the RfS deadlines. The notice shall provide a period of 7 business days to the respective RPDs to either furnish the necessary documents or make the above-mentioned payment of Rs. 1,000/MW/day. In case of non- submission of either-the requisite documents or the necessary amount upon expiry of the above-mentioned notice period of 7 days-Tata Power-D shall encash the PBG/POI of the corresponding RPDs and terminate the PPA for the corresponding Project. The amount of Rs. 1,000/MW/day shall be paid by the RPDs in advance prior to the commencement of the said delay period and shall be calculated based on the period of delay as estimated by the RPD. In case of the RPD meeting the requirements of Financial Closure before the last date of such proposed delay period, the remaining amount deposited by the RPD shall be returned by Tata Power-D. Interest on account of delay in deposition of the above-mentioned charges or on any subsequent extension sought, shall be levied @ one year SBI MCLR rate /annum on pro- rata basis. Any extension charges paid so, shall be returned to the RPD without any interest on achievement of successful commissioning within the Scheduled Commissioning Date, on pro-rata basis, based on the Contracted capacity commissioned as on Scheduled Commissioned Date.
- 6.12.5 The RPD will have to submit the required documents to Tata Power-D at least 14 days prior to the scheduled Financial Closure date. In case of delay in submission of documents mentioned above, Tata Power-D shall not be liable for delay in verification of documents and subsequent delay in Financial Closure.

6.13 Land Arrangements for the Project:

- 6.13.1 The RPD shall be entirely responsible for acquiring the land required for setting up the project and Tata Power-D shall not in any manner be responsible for the same.
- 6.13.2 The RPD shall submit documents/Lease Agreements to establish possession/right to use 100% (hundred per cent) of the required land in the name of the RPD for a period not less than the complete term of the PPA, on or before the SCSD. Wherever leasing of private land is involved, the lease should allow transfer of land lease rights to the lenders or Procurer, in case of default of the RE Power Generator.
- 6.13.3 The RPD shall submit a sworn affidavit from the authorized signatory of the RPD listing

the details of the land and certifying that total land required for the Project is under clear possession of the RPD.

- 6.13.4 With respect to demonstration of land possession by the RPD, commissioning of the Project will not be allowed until the demonstration of land possession by the RPD in terms of this Clause and Clause 6.8.3.2(v) of the RfS. However, in case of delays in demonstrating land possession by the RPD on account of Government delay (including but not limited to delay in land use pattern change, and/or relaxation under respective State land ceiling Act, and/or land lease permission from State Government/Authorities) or delay caused due to a Force Majeure as per PPA, SCSD shall be suitably extended.

6.14 Commercial Operation Date (COD) and Commencement of Supply Date (CSD):

- 6.14.1 Commercial Operation Date (COD) shall be the date declared by the generating station after undergoing a successful trial run as per IEGC 2023 or MEGC, 2024 and amendments thereof, and subject to fulfilment of other conditions, if any, of this PPA. In the case of a generating station as a whole, the commercial operation date of the last unit of the generating station shall be considered as the COD of the generating station. Further, Commencement of Supply Date (CSD) shall be the date of commencement of supply of power of the contracted capacity. The following milestone dates may therefore be observed and may fall on separate dates.

- a) **Interconnection with Grid:** This may be provided by the STU/ CTU/ DISCOM, on the request of the RPD, even if the Project is only partially ready, to facilitate testing and allow flow of power generated into the grid to avoid wastage of Power.
- b) **Commissioning of the Project:** This will be on a date, when the project meets the criteria defined for project commissioning. Tata Power-D may authorize any individual or committee or organization to declare the project commissioned on site.

Any energy produced and flowing into the grid before CSD shall not be at the cost of Tata Power-D under this scheme and developers will be free to make short-term sale to any organization or individual. Tata Power-D may agree to buy this power as a trader if they find it viable outside this RfS.

- 6.14.2 Prior to commencement of power supply under the PPA, the RPD shall be required to demonstrate installation and COD of rated capacities of Wind, Solar PV, ESS or any other RE components on pro-rata basis, pertaining to the Contracted Capacity (part/full) being proposed to commence power supply. It is clarified that commissioning/COD of a single component or having a composition lower than the above required percentage, shall not construe commencement of power supply from the Hybrid Project.

Reg: M/s.....(insert name of the PPA signing entity) (Project No. (Insert project ID issued by Tata Power-D) – Issuance of Payment on Order Instrument for an amount of Rs.

Dear Sir,

- 1) The Ministry of New and Renewable Energy, Government of India vide its letter dated 12th March 2020 has decided that to facilitate the promotion of solar and wind power development and implementation of the project by the Solar and Wind Power Developers who have entered into financing and funding agreements with IREDA/REC/PFC, the security by way of PBG in the form of Performance Bank Guarantee given by the Developers be allowed to be substituted by Letter of Undertaking/ Payment on Order Instrument issued by Non- Banking Finance Companies under the control of the Ministry of New and Renewable Energy and Ministry of Power. Tata Power-D and other nodal agencies appointed by the Government of India with whom the power developers have entered into Power Purchase Agreement may accept the same in place of PBG. The Ministry of New and Renewable Energy vide letter dated 12.03.2020 has, inter-alia, decided as under:

After carefully examining the matter, the Ministry have decided as follows:

- i) *SECI or NTPC or any other implementing agency on behalf of MNRE (henceforth called implementing agencies) may release the Performance Bank Guarantee (PBG) of any project if RE developers are able to replace the same with Letter(s) of Undertaking to pay in case situation of default of RE developer in terms of Power Purchase Agreement (PPA) arises, from Indian Renewable Energy Development Agency Limited (IREDA) or Power Finance Corporation Limited (PFC) or REC Limited (REC), the three non-banking financial institutions under Ministry of New & Renewable Energy (MNRE)/ Ministry of Power (MoP). Such Letter(s) may be termed as "Payment on Order instrument" and will have same effect as that of a Bank Guarantee issued by any public sector bank. This "Payment on Order instrument" would have terms and conditions similar to that of any Bank Guarantee given by any public sector bank and would promise to pay the implementing agencies on demand within stipulated time.

The entire bid-submission would be online on ETS (unless specified for Offline Submissions). Broad outline of submissions are as follows:

- Submission of Bid-Parts
 - Envelope I (Technical-Bid)
 - Envelope II (Financial-Bid)
- *Submission of digitally signed copy of Tender Documents/ Addendum*

In addition to the above, the bidders are required to submit certain documents physically offline also as per Clause 3.14.1 of the RfS, failing which the technical bids will not be opened.

Note: The Bidder should also upload the scanned copies of all the above mentioned original documents as Bid-Annexures during Online Bid-Submission.

Internet Connectivity

If bidders are unable to access ISN-ETS’s e-tender portal or Bid Documents, the bidders may please check whether they are using proxy to connect to internet or their PC is behind any firewall and may contact their system administrator to enable connectivity. Please note that Port SSL/ 443 should be enabled on proxy/firewall for HTTPS connectivity. Dial-up/ Broad and internet connectivity without Proxy settings is another option.

SPECIAL NOTE ON SECURITY AND TRANSPARENCY OF BIDS

Security related functionality has been rigorously implemented in ETS in a multidimensional manner. Starting with 'Acceptance of Registration by the Service Provider', provision for security has been made at various stages in Electronic Tender's software. Specifically, for Bid Submission, some security related aspects are outlined below:

As part of the Electronic Encrypted® functionality, the contents of both the 'Electronic Forms®' and the 'Main-Bid' are securely encrypted using a Pass-Phrase created by the Bidder himself. Unlike a 'password', a Pass-Phrase can be a multi-word sentence with spaces between words (e.g. I love this World). A Pass-Phrase is easier to remember, and more difficult to break. It is mandatory that a separate Pass-Phrase be created for each Bid-Part. This method of bid-encryption does not have the security and data-integrity related vulnerabilities which are inherent in e-tendering systems which use Public-Key of the specified officer of a Buyer organization for bid-encryption. Bid-encryption in ETS is such that the Bids cannot be decrypted before the Public Online Tender Opening Event (TOE), even if there is connivance between the concerned tender-opening officers of the Buyer organization and the personnel of e-tendering service provider.

CAUTION: All bidders must fill Electronic Forms® for each bid-part sincerely and carefully, and avoid any discrepancy between information given in the Electronic Forms® and the corresponding Main-Bid. For transparency, the information submitted by a bidder in the Electronic Forms® is made available to other bidders during the Online Public TOE. If it is found during the Online Public TOE that a bidder has not filled in the complete information in the Electronic Forms®, the TOE officer may make available for downloading the corresponding Main-Bid of that bidder at the risk of the bidder. **If variation is noted between the information contained in the Electronic Forms® and the 'Main-Bid', the contents of the Electronic Forms® shall prevail.**

In case of any discrepancy between the values mentioned in figures and in words, the value mentioned in words will prevail.

The bidder shall make sure that the Pass-Phrase to decrypt the relevant Bid-Part is submitted into the 'Time Locked Electronic Key Box (EKB)' after the deadline of Bid Submission, and before the commencement of the Online TOE of Technical Bid. The process of submission of this Pass-Phrase in the 'Time Locked Electronic Key Box' is done in a secure manner by first encrypting this Pass-Phrase with the designated keys provided by Tata Power-D.

Additionally, the bidder shall make sure that the Pass-Phrase to decrypt the relevant Bid-Part is submitted to Tata Power-D in a sealed envelope before the start date and time of the Tender Opening Event (TOE).

There is an additional protection with SSL Encryption during transit from the client-end computer of a Supplier organization to the e-Tendering Server/ Portal

PUBLIC ONLINE TENDER OPENING EVENT (TOE)

ETS offers a unique facility for ‘Public Online Tender Opening Event (TOE)’. Tender Opening Officers, as well as, authorized representatives of bidders can simultaneously attend the Public Online Tender Opening Event (TOE) from the comfort of their offices.

Alternatively, one/ two duly authorized representative(s) of bidders (i.e., Supplier organization) are requested to carry a Laptop with Wireless Internet Connectivity, if they wish to come to Tata Power-D’s office for the Public Online TOE, if applicable for the RfS.

Every legal requirement for a transparent and secure ‘Public Online Tender Opening Event (TOE)’, including digital counter-signing of each opened bid by the authorized TOE- officer(s) in the simultaneous online presence of the participating bidders’ representatives, has been implemented on ETS.

As soon as a Bid is decrypted with the corresponding ‘Pass-Phrase’ as submitted by the bidder himself during the TOE itself, or as per alternative methods prescribed in the Tender Documents, salient points of the Bids (as identified by the Buyer organization) are simultaneously made available for downloading by all participating bidders. The tedium of taking notes during a manual ‘Tender Opening Event’ is therefore replaced with this superior and convenient form of ‘Public Online Tender Opening Event (TOE)’.

ETS has a unique facility of ‘Online Comparison Chart’ which is dynamically updated as each online bid is opened. The format of the chart is based on inputs provided by the Buyer for each Bid-Part of a tender. The information in the Comparison Chart is based on the data submitted by the Bidders. A detailed Technical and/ or Financial Comparison Chart enhances Transparency. Detailed instructions are given on relevant screens.

ETS has a unique facility of a detailed report titled ‘Minutes of Online Tender Opening Event (TOE)’ covering all important activities of the ‘Online Tender Opening Event (TOE)’. This is available to all participating bidders for ‘Viewing/ Downloading’, as per the NIT configured by the bidding agency.

There are many more facilities and features on ETS. For a particular tender, the screens viewed by a Supplier will depend upon the options selected by the concerned Buyer.

OTHER INSTRUCTIONS

For further instructions, the vendor should visit the home-page of the portal **<http://www.bharat-electronictender.com>**, and go to the **User-Guidance Center**

The help information provided through ‘ETS User-Guidance Center’ is available in three categories – Users intending to Register/ First-Time Users, Logged-in users of Buyer organizations, and Logged-in users of Supplier organizations. Various links (including links for

User Manuals) are provided under each of the three categories.

Important Note: It is strongly recommended that all authorized users of Supplier organizations should thoroughly peruse the information provided under the relevant links, and take appropriate action. This will prevent hiccups, and minimize teething problems during the use of ETS.

SEVEN CRITICAL DO'S AND DON'T S FOR BIDDERS

Specifically, for Supplier organizations, the following '**SEVEN KEY INSTRUCTIONS for BIDDERS**' must be assiduously adhered to:

- 1) Obtain individual Digital Signing Certificate (DSC or DC) of Class III well in advance of your tender submission deadline on ETS.
- 2) Register your organization on ETS well in advance of the important deadlines for your first tender on ETS viz 'Date and Time of Closure of Procurement of Tender Documents' and 'Last Date and Time of Receipt of Bids'. Please note that even after acceptance of your registration by the Service Provider, to respond to a tender you will also require time to complete activities related to your organization, such as creation of -- Marketing Authority (MA) [ie a department within the Supplier/ Bidder Organization responsible for responding to tenders], users for one or more such MAs, assigning roles to them, etc. It is mandatory to create at least one MA. This unique feature of creating an MA enhances security and accountability within the Supplier/ Bidder Organization
- 3) Get your organization's concerned executives trained on ETS well in advance of your first tender submission deadline on ETS.
- 4) For responding to any particular tender, the tender (i.e. its Tender Search Code or TSC) has to be assigned to an MA. Further, an 'Official Copy of Tender Documents' should be procured/ downloaded before the expiry of Date and Time of Closure of Procurement of Tender Documents. Note: Official copy of Tender Documents is distinct from downloading 'Free Copy of Tender Documents'. Official copy of Tender Documents is the equivalent of procuring physical copy of Tender Documents with official receipt in the paper-based manual tendering system.
- 5) Submit your bids well in advance of tender submission deadline on ETS (There could be last minute problems due to internet timeout, breakdown, etc.)

Note: Bid-submission in ETS can consist of submission of multiple bid- components, which vary depending upon the situation and requirements of the Buyer. Successful receipt of a bid in an e-tendering scenario takes place if all the required bid- components are successfully 'received and validated' in the system (ETS) within the scheduled date and time of closure of bidding (On some ETS screens, this is also referred to as 'Last Date and Time of Receipt of Bids'). ETS/ Service Provider is not responsible for what happens at an end-user's end, or while a submission made by an end-user is in transit, until the submission

is successfully ‘received and validated’ in ETS. When a bid-component receipt and validation is successful, it is recorded in the ETS Audit Trail Report, which is generated by ETS. In case of any uncertainty, the application audit trail generated by ETS (ETS Audit Trail Report) shall be the final record/evidence for reference regarding the ‘successful bid receipt’.

- 6) It is the responsibility of each bidder to remember and securely store the Pass-Phrase for each Bid-Part submitted by that bidder. In the event of a bidder forgetting the Pass-Phrase before the expiry of deadline for Bid-Submission, facility is provided to the bidder to ‘Annul Previous Submission’ from the Bid- Submission Overview page and start afresh with new Pass-Phrase(s) and if the bids are not opened with the pass-phrase submitted by bidder, Tata Power-D may ask for re-submission/ clarification for correct pass-phrase. If bidder fails to submit correct pass- phrase immediately as requested by Tata Power-D, the Bid Processing Fee and Document Fee, if applicable, shall be forfeited and bid shall not be opened, and EMD shall be refunded. No request on this account shall be entertained by Tata Power-D.
- 7) ETS will make your bid available for opening during the Online Public Tender Opening Event (TOE) ‘ONLY IF’ the status pertaining Overall Bid-Submission is ‘COMPLETE’. For the purpose of record, the bidder can generate and save a copy of ‘Final Submission Receipt’. This receipt can be generated from 'Bid- Submission Overview Page' only if the status pertaining overall Bid-Submission’ is ‘COMPLETE’

NOTE:

While the first three instructions mentioned above are especially relevant to first-time users of ETS, the fourth, fifth, sixth and seventh instructions are relevant at all times.

ADDITIONAL DOs AND DON'Ts FOR BIDDERS PARTICIPATING IN e-REVERSE AUCTION

- 1) Get your organization's concerned executives trained for e-Reverse Auction related processes on ETS well in advance of the start of e-Reverse Auction.
- 2) For responding to any particular e-Reverse Auction, the e-Reverse Auction (i.e. its Reverse Auction Search Code or RASC) has to be assigned to an MA.
- 3) It is important for each bidder to thoroughly read the 'rules and related criterion' for the e-Reverse Auction as defined by the Buyer organization.
- 4) It is important to digitally-sign your 'Final bid' after the end of e-Reverse Auction bidding event.
- 5) Pay the ETS Bidding-Fee for e-Reverse Auction well in advance of the start of e- Reverse Auction Bidding Event.

Note: To participate in e-Reverse Auction, the ETS Bidding-Fee for e-Reverse Auction should be paid before the 'Date and Time of Start of Reverse-Auction'. In case ETS Bidding-Fee for e-Reverse Auction is sent offline to the Auctioneer or ETS Service Provider, it is important for the bidder to ensure that the Auctioneer/ ETS Service Provider has received the ETS Bidding-Fee for e-Reverse Auction and also entered the related details in ETS.

When the Auctioneer/ ETS Service Provider enters the details, the bidder should receive an e-mail acknowledgement. If ETS Bidding-Fee for e-Reverse Auction status of the bidder is not updated as outlined above, the bidder would not be able to participate in the Auction.

- 6) During an e-auction, it is recommended that a bidder submits a bid well before the scheduled time of 'Date and Time of Closure of Reverse-Auction'. Submission of a bid near the closing time of an auction may result in failure due to any of the various factors at that instant, such as – slow internet speed at the bidder's end, slow running of computer at bidder's end, nervousness of the bidder in the last few seconds, etc. This could lead to delay in submission of data from the bidder's computer to the server. Even if the delay is of a fraction of second after the scheduled closing time, it will result in failure of bid submission. Further, please note that a bid can be submitted even if the bidding-page has not been refreshed manually, or otherwise depending on the conditions of the e-auction.

Note: Successful receipt of Bid in an e-auction scenario takes place if the bid is successfully 'received and validated' in the system (ETS) within the scheduled date and time of closure of bidding (On some ETS screens, this is also referred to as 'Date and Time of Closure of Reverse-Auction', or Forward-Auction, as the case may be). End Users shall be solely responsible for ensuring timely submission of their respective bids such that the bids are successfully received in ETS as stated above. ETS/ Service Provider is not responsible for what happens at an end-user's end, or while a submission made by an end-user is in transit, until the submission is successfully 'received and validated' in ETS. When a bid is

successfully ‘received and validated’, it is recorded in the ETS Audit Trail Report, which is generated by ETS. In case of any uncertainty, the application audit trail generated by ETS (ETS Audit Trail Report) shall be the final record/evidence for reference regarding the ‘successful bid receipt’.

- 7) It is important to digitally-sign your ‘Final bid’ after the end of e-Reverse Auction bidding event.
- 8) Minimum Requirements at Bidder’s End Computer System having configuration with minimum Windows 7 or above, and Broadband connectivity Microsoft Internet Explorer 7.0 or above, or Edge with Internet Explorer mode Digital Certificate(s).

9) Vendors Training Program

One day online training (10:00 to 17:00) is provided by ISN-ETS. Training is optional. In case, any bidder is interested, he may send a request to support@isn- ets.com. Vendors are requested to arrange their own Laptop, Digital Certificate and Wireless Connectivity to Internet.

Vendors Training Charges (Per Participant): Rs. 5,000/- (plus GST @ 18.00 %) or as charged by ISN-ETS.

Annexure-D

Illustration regarding applicability of liquidated damages on account of shortfall in Power Supply (Clause 6.7.2, Section VI of the RfS)

❖ Assumptions

Availability During peak hours shall be calculated on monthly basis based on availability in each time block of 15 minutes.

For each day, there shall be 16 time blocks each of 15 minutes duration during peak hrs as defined by Tata Power-D

Average daily peak hrs availability shall be calculated as illustrated in table below. Average daily peak hrs availability shall be Calculated for every day in a month.

Average monthly peak hrs availability shall be calculated after taking average of all days in a month.

Liquidated damages on account of shortfall in peak hrs availability shall be determined as illustrated below.

ILLUSTRATION

Contracted Capacity: **250 MW** (for which LoA has been issued, and PPA has been signed)

Applicable Tariff: **Rs. 4.00/kWh**

Calculation of daily peak hrs availability:

Time Block	Duration (hrs)	Contracted Capacity (MW)	Offered Capacity (MW)	Peak Availability (%)
T1	15	250	225	90.00%
T2	15	250	250	100.00%
T3	15	250	200	80.00%
T4	15	250	200	80.00%
T5	15	250	200	80.00%
T6	15	250	200	80.00%
T7	15	250	200	80.00%
T8	15	250	200	80.00%
T9	15	250	200	80.00%
T10	15	250	200	80.00%
T11	15	250	225	90.00%
T12	15	250	250	100.00%
T13	15	250	250	100.00%
T14	15	250	250	100.00%
T15	15	250	250	100.00%
T16	15	250	250	100.00%
Average Daily Peak Availability		4000	3550	88.75 %

Average monthly peak hrs availability after taking average of Average Daily Peak Availability all days in a month = **88.75 %**

i. Shortfall in monthly peak hour Availability

- Average Power offered in Peak Hour time block= (Average monthly Peak hour availability x Contracted capacity) = $0.8875 \times 250 = 221.875$ MW
- Min. required average Power to be offered in Peak hour time block (@90%availability) = $(0.90 \times \text{Contracted Capacity}) = 225$ MW
- Shortfall in monthly peak hour availability= $225 - 221.875 = 3.125$ MW
- Damages on account of shortfall in Peak hours availability = INR (Shortfall in monthly peak hour availability x no. of days in the month x 4 x 1.5 x Applicable Tariff x 1000 = INR $3.125 \times 30 \times 4 \times 1.5 \times 4.00 \times 1000 = \text{INR } 22,50,000/-$

ii. Shortfall in annual offering of energy from RE sources

- Total Firm and Dispatchable RE power offered (MWh) for the corresponding month = 63000 MWh (Considering tentative CUF of 35 %)
- Total Firm and Dispatchable RE power offered (MWh) for the year = (Summation of Power (MWh) offered for each month) = $63000 \times 12 = 7,56,000$ MWh
- Minimum annual energy from Firm and Dispatchable RE power sources committed at the time of bid submission = $250 \times 24 \times 365 \times 0.40 = 8,76,000$ MWh (at 40% CUF)
- Shortfall in energy during Peak hour Availability = $3.125 \times 4 \times 30 = 375$ MWh
- Thus, Shortfall in energy offered through Firm and Dispatchable RE power in the year = $876000 - 756000 - 375 = 119625$ MWh
- Damages due to shortfall in Firm and Dispatchable RE power offered for the year = (Annual shortfall x Applicable RE Tariff x 1000) = $119625 \times 4.00 \times 1.5 \times 1000 = \text{Rs. } 71,77,50,000/-$

As per the provisions of the RfS and PPA, both damages will be levied on the RPD/REPG for the corresponding Contract Year. However, if Penalty on account of shortfall in Annual CUF is negative, no penalty shall be applicable to RPD due to non achieving of Annual CUF. However, Penalty on account of shortfall in Peak Hours Availability shall be applicable.

Note: The above illustration has been provided for a sample monthly data, based on assumptions as indicated. Actual calculations for liquidated damages will be made for the yearly data as per REA/SEA.
